

No. 1—The newly painted Liberty Baptist church, right on the highway soon after leaving Cove Creek. The men shown here are members, and plan to paint the roof, and make other improvements. The men are left to right: James

No. 2—The mail boxes on White Oak have attractive name plates, and add much to the appearance of the roadside.

No. 3—Mrs. Sallie Sutton is in the poultry business in a big way. She has almost 800 chickens. She is in the hatching egg production, and is doing a fine job.

No. 4—The Pigeon Baptist church. The pastor is Rev. Pete Hicks.

No. 5—Yoder Messer, together with his brothers, operate the largest farm in the community—268 acres in all. They have four acres of tobacco, and a wide variety of farm equipment, including a tractor, hay baler, threshing machine, and other kindred implements.

No. 6—A registered O.C. hog with her seven pigs on the Jess Jenkins farm on Stevens Creek.

No. 7—Patsy and Jamie Davis, daughters of Mr. and Mrs. Robert Davis in their room, which they have furnished as a F.H. Club project.

### White Oak Women Show Interest In Club Work

... marks the first steps toward organization of a Home Demonstration Club by the women of White Oak, 15 of whom are interested in becoming members. In the meantime, however, the women have not been idle as far as home improvement and other projects are concerned. Four of them have done what their neighbors consider outstanding work on their houses and yards during the past year. They are Mrs. Joe Davis, Mrs. Joe Davis, Mrs. Boring and Mrs. Rowe. Led together, there have been 32 outside beautification projects completed this year. The 60 families in the community, 50 have electric refrigerators and 60 have other major electrical appliances. Taking care of their home food supply accounts for a good part of the time of the energetic women of White Oak. Every one of the families has its own home garden and an adequate supply of home-canned fruits, vegetables, and meats. Dairy farmers in many parts of the United States are now milking their cows in open barn rooms which are called "milking parlors." New methods have been developed that are expected to permit the canning of whole fresh milk.
