Saga of Bill, The Lady Turtle

SANTA BARBARA, Calif.—(AP)—It takes four hours, 10 minutes to reach Tacoma, Wash., by commercial airline.

It takes 18 hours by car, averaging 60 miles an hour. It took Bill, a lady turtle, seven months. Nobody knows whether she went by the shortest route, made any stopovers, or hitched any rides.

Bill's amazing journey came to light when Santa Barbara police received a letter from H. F. Roufs, of Dempsey Mill Road, Tacoma. It said: "Dear sir: The Tacoma Chamber of Commerce tells me that you have an Ashley Road in your city. It couldn't be possible that a large turtle we found on the road here painted in red and white '119 Ashly Rd.' meandered here, could it?"

Yes, Bill belonged at that address and the owner was pleased to hear she was safe. Plans were made immediately to bring Bill back to her grieving mate, Willie.

Yale played the first international game of football, defeating Eton, two goals to one, in 1873.

Junaluska Will Hold Emory Day

The first annual "Emory Day" at Lake Junaluska will be held August 4, according to Dr. H. G. Allen, superintendent of the Lake Junaluska Assembly and chairman of the "Emory Day" committee. Exhibits, entertainment and luncheon are planned for friends and alumni of Emory University who are expected to attend from all parts of North Carolina.

An address at 11 a.m. by Senator Spessard L. Holland of Florida will highlight the festivities. Senator Holland, an Emory graduate of 1912 and holder of an Emory L.L.D. was governor of Florida from 1941 to 1945, after which he was elected to the U. S. Senate. During World War I he served in the Coast Artillery Corps, advancing from private to captain and winning the Distinguished Service Cross.

Fish Food Typing Proposed

SANTA BARBARA, Calif.—(AP)—Where do salmon wander after they swim into the sea from their spawning beds in rivers?

Where do sardines breed? What course do tuna follow in their ocean migrations?

Scientists at Santa Barbara College hope to obtain answers to these and other questions of interest to ocean fishermen by research into the blood types of fish. Dr. John E. Cushing recently launched the program. He and his aides are studying blood samples from salt water fish kept alive in a special aquarium on the campus.

He expects to find that fish have different types of blood, just as humans do, and that through knowledge of the various types man will be able to trace their paths through the sea. A fish's blood will act as an identification tag, identifying him no matter in what ocean he is found.

Eddie Erdelatz, Navy's new head football coach, scouted a game for Earl Blaik of Army when the latter was coach at Dartmouth.

Some of the best talent in Western North Carolina will provide music for a VFW clubhouse dance on the Clyde road Saturday night. Department Commander and Mrs. F. Coe Cogburn; Judy Devlin, who is the 1951 Festival Queen, and her court, will be special guests. Dancing will start at nine o'clock and is open to the public.
