State And County Boards Approve Plan For General Expansion of Local Schools

A proposal that Haywood spend two millions on an expanded school system has been made by the State and county boards of education in a joint recommendation to the county commissioners.
The detailed report climaxes a long study of the physical needs of schools in Haywood, and provides for a general expansion of buildings and facilities in every section of the county.
The report was handed the commissioners on Friday by Mrs. Lucy Jones, county superintendent. The commissioners are expected to make a thorough study of the proposals, and confer with the county board of education at a later date.
The new recommendations have been modified from the original proposed three million dollar program.
Under the terms of the current report, Haywood would vote two millions in bonds. Added to this would be \$346,000 as the county's share of the state-wide school bond program. The Canton charter school district would get slightly more than 31 per cent of the two millions, with the other 69 per cent being used on Haywood schools. The 69 per cent amounts to \$1,394,200.
The proposal put the cost of the seven projects at slightly over \$1,508,700, with \$200,000 set aside for equipment, and \$31,500 for contingencies.
The largest single project would be the Bethel elementary building, costing \$469,700.
An addition of physical education unit, and classrooms at the Crabtree-Iron Duff school has been set at \$168,000.
The Waynesville high vocational building is estimated to cost \$330,000.
The elementary building for Waynesville set at \$260,000.
Clyde would get \$100,000 for a physical education building.
A sum of \$206,000 was set for repairs, renovations and additions for the Maggie, Rock Hill, Lake Junaluska, and others.
The State Board held out for two consolidations — Cecil and Spring Hill. The county board (See Schools—Page 6)
