Plains Methodist WSCS Hostess For Study Course

MRS. LLOYD R. JONES Mountaineer Reporter The Women's Society of Christian Service of the Plains Methodist Church, Hominy, was hostess Monday afternoon to five other groups for a Study Course entitled, "The Family—A Christian's Concern." Mrs. Ray Torpey of Alexandria, Va., was the guest speaker. She was introduced by Mrs. Hub Burnette, Study Course chairman. Mrs. Torpey is the former Miss Jo Mann, daughter of Mrs. Frank Mann of North Main Street. She is a graduate of the Woman's College of the University of North Carolina. Mrs. G. H. Hipps, president of the Plains society, presided over the meeting, which lasted from 2 to 4 p. m. with a brief break for refreshments.

Groups participating in addition to the hostess society were The Women's Society of Canton First Church, Bethel, Rockwood, Beaverdam, and the Rockwood Wesleyan Service Guild.

The Fourth Quarterly Conference of the Rockwood Charge was held Tuesday night at the Plains Church, with the Rev. W. J. Huneycutt, district superintendent, presiding. Reports were heard from the pastor and from all church officials; and plans were made for the coming year.

The Rev. and Mrs. W. Jackson Huneycutt were dinner guests Tuesday of the George B. Culbreths.

Several young people of the Plains Church enjoyed Youth Week activities at Rockwood Church last week.

Mr. and Mrs. James Dixon and children were Sunday visitors of the Rev. George Culbreth.

TRAIL BLAZER - with plenty on the ball

How long since you lifted the hood of a car, and took a good look at what's beneath? We like to have folks do that with a Buick. You'll find that broad bonnet isn't put there for show. It's packed with horsepower—high, wide and handsome—more horsepower than normal drivers will ever use in full. And—if you're up to date on modern features—you'll find that this bonnet is packed with these too. Do you know, for example, that every new engine introduced or previewed in recent years is built on the valve-in-head principle? Score one for Buick. No Buick engine has ever been built in any other way. Do you know what it takes to make full use of high compression? A valve-in-head engine! Score two: Buick has been stepping up compression ratios for years. But Buick has blazed one trail which other engines still haven't followed—don't ask us why. Every Buick has a Fireball Engine which, as we've said before, is like having a string of comets by the tail. Fact is, in every flame-packed cylinder there is a comet—rolled into a swirling ball by a special turbo-top piston—touched off by a flashing spark every 5 inches you travel in a Buick. That's why we're proud to show folks that Buicks have a Fireball Engine—and prouder still to have them take one of these thrilling performers out on the road. Want to try it? Come in and see us soon. Equipment, accessories, trim and models are subject to change without notice.
