Daily Bread

By Rev. A. Purnell Bailey

With God all things are possible!

When John B. Gough was so enslaved by drink, so it is related, he made practice of locking himself in his hotel room and tossing the key out of the win-dow that he might improsin himself from the ravages of his own appetite,

In his self-discipline, poor as it was, he had a faith that there were still resources in God on which he could draw

When Latimer and Ridley were taken to Oxford Square to be burnt at the stake, they had faith, as Latimer put it, that "we shall this day light such a candle by God's grace, in England, as I trust shall never be put out!

With God all things are possible!

"Queenland"

It looks like Haywood has become the "land of Queens' according to the large number named from the county during the past week.

The honors bestowed upon the young women speak well for them, and their communities.

We have noticed that those who act natural, appear at ease, and take the crowds as they come, are usually the ones that are named as queen. One judge pointed out that natural poise, and a cheerful outlook on life was not only an asset in everyday living, but a decided factor in winning places of honor as

-After Labor Day

The passing of Labor Day brings about an atmosphere in Haywood that is difficult to explain. We look on the occasion as the real beginning of school, and also the beginning of the fall season.

The routine of summer is dismissed, as the citizens get back on fall and winter schedules.

This time of year always brings to mind the one big factor we are missing here in Haywood in not preparing and staging a longer season for visitors. Truly the fall months are the glorious months of the year in this Land of the Smokies. The summer months are comfortable ones, but for sheer beauty, and delightful living, the fall must always be reckoned with.

Suffice it to say, that with our facilities already here, the fall months could also be the most profitable of all. The resort areas on the beaches are not prepared for fall business, which is one less competitor in the field which we are now overlooking.

We feel that some day we will realize what we have been missing all these years by not extending our season to Thanksgiving. But sad to say, by then, we will have missed many

Successful Events

Last Monday three of our neighboring communities staged festivities which were term- pital to see President Roosevelt. ed in each case as "highly successful."

Over at Sylva the streets and roads were packed with 35,000 to 40,000 visitors attend- S. C., to enter the Presbyterlan ing the Centennial, while at Canton another College 10,000 saw the parade and other events on the Labor Day program. Over at Hendersonville the second parade in two days attracted 20,-000 people, with 3,300 turning out to see the climax of the Apple Harvest Festival and football game, with the crowning of the queen during half - time.

We are happy that all three events were so highly successful, because we realize to some degree the vast amount of hard wark and detail necessary to make such events successful.

Unfortunately for us here in Waynesville, we have not had the fine weather in the past three years for our Tobacco Harvest Festival date in November as our neighbors enjoyed this past week.

Anyway, our neighbors all around, have every right to feel proud of their efforts. The second se

Football Time Again

Football for Haywood begins this week-end, as the curtain for the 1951 season rolls by far the most handsome. This in-end, as the curtain for the 1951 season rolls by far the most handsome. This in-er Henry Jordan is still getting a up on what promises to be plenty of action. The four high school teams-Waynesville, Canton, Clyde and Bethel, should have teams County twice in the Senate. which will warrant support of their school

A Problem for Baby-Sitters By GARRY CLEVELAND MYERS, Ph.D.

IN the days when Grandma or Aunt Kate minded the youngsters Aunt Kate minded the youngsters while the parents went out for an when parents get this evening, she disciplined them as she saw fit; she made them mind. The modern baby-sitter is neither equipped nor authorized to dis-cipline the child from two to six. Nor has this child usually been sufficiently disciplined by his parents to be easily managed by the baby-sitter. The problem of with the baby-sitter. control may be especially difficult for the teen-age sitter. In consequence, girls otherwise highly desirable for being with young children are harder and harder to

queens. No doubt, therein lies much of the secret of the success.

Officials Show Efficiency

The Mountaineer is certain is expresses the sentiments of the community in thanking the officers for their fine, as well as fast work and the manner in which they handled the arrest of the Negro youth here last week after he had shot a white man who befriended him.

The youth was quickly lodged in jail, and in due course of time, the officers talked the case over with the victim and then confronted the defendant who admitted the plotting of the crime throughout.

The case from here in is a matter for the courts, as the officers, working together, quickly solved, as well as handled with efficiency, a dangerous criminal.

patrons as well as the sportslover at large. Haywoodl county is really a football area, with some of the largest crowds of the state turning out to see the high school games.

One thing that has made Haywood teams so popular has been the good teams, and the bitions and became the candidate excellent sportsmanship displayed by the teams and coaches.

Although the rivalry is keen, and the playing is hard, the teams conduct themselves as County's representatives and exectrue sports at all times.

While the coaches are not given too much to making predictions, and talking in preseason interviews, it is evident that Haywood as saying last week. It is to be is again in for some good football, and win or lose, the fans will again see many a good sport do his best on the field.

Agriculture Commissioner. for Hodges was prevailed upon to run for State Treasurer. He beat out Jim Volger, one of Mecklenburg utive secretary of the N. C. Food

Dealers Association. "I am closer to running than ever before," Hodges was quoted wood County presumed that he meant closer to running for Governor.

LOSES FATHER - Ben Roney. the smooth and friendly assistant to Governor Kerr Scott, lost his father Dr. Robert H. Roney of Burlington last week

There is no special reason to report this here except to extend condolences to Ben, who is an able workhorse for the Governor. A few months ago Special Assistant John Marshall lost his fath-

er, a Baptist minister. No man could have more loval and devoted followers than Ben and John, Working for a hell-forleather, controversial and wholly

unpredictable boss, they have had their full share of reflected criticism and reflected glory. There have been times, when brickbats and old beer bottles, old shoes and stones were flying, that it would have been quite pleasant just to retire from the scene. But Roney and Marshall have stuck right in there, developing thick skins as they moved along. If they ever doubted for a moment their boss, nobody heard about it. They have nursed their bruises in silence. So, while this column and other ypewriters and tongues have had some merry times with John Marshall and Ben Roney-particularly the former-they are still assistants to an unusual Governor of North Carolina and as such have carved for themselves, through patience, endurance and loyalty a little niche in the history, in the progress of one of the nation's most honorable states.

DEVELOPMENTS - Kerr Scott during the past week said he is getting a lot of encouragement to run for Lieutenant Governor. From what source, he didn't dis-

buildup in certain quarters as a candidate for Governor. The matter of Powell Bill money for city

streets, who is to do the work on ing with the Russians, your guess these streets, and other particulars is as good as mine." Harold Massie; "I think it's go-Carolina must be straightened out

MIRROR OF YOUR MIND

Is childhood "life's happiest time"

Answer: It is hard for a psychotherapist to answer this question fairly because people who had really happy childhoods do not seek his help. But the prevalence of neurosis suggests that while childhood should perhaps In theory be "life's happiest time," it is seldom so in practice-at least in the civilized world. If you look back longingly to childhood, it is probably because you are inking of one aspect of it-freein from care and responsibility -and conventently forgetting ers, like the sense of helplessbefore the whims of grown-

Answer: No. It is always potentially dangerous if too prolonged and severe, but in crises it may prove extremely useful. A writer in the V.F.W. Magazine describes the combat soldier's "Journey Beyond Fear," ending at the point where "you are so

afraid that you can be afraid no without the other. (Copyright, 1961, King Features Byndiests, Inc.)

sciousness, enabling the soldier to act more courageously than would otherwise be possible. But this does not mean he is not inwardly afraid, and if the repression breaks down, "war neurosis" follows.

By LAWRENCE GOULD

Consulting Psychologist

Does "proximity" make marridge harder?

Answert Yes, says Dr. Erich Lindemann, noted psychiatrist, in the Journal of Pastoral Care. The "enforced preximity" to another person which marriage entails results in "obligatory intimacy" that not only invades privacy but shatters illusions. You cannot go on idealizing someone whom you see in the most "unromantic" situations as you did during your engagement, but must work out a new, realistic partnership based on shared responsibility for home and children. However, If this is done, proximity will build a degree of oneness in which either

partner will come to feel "lost"
