Sims To Put 10,000 Hens On His Farm

Ed Sims is converting his 32-acre farm, between here and Lake Junaluska, into one of the largest poultry farms in North Carolina. Construction got underway this morning on the first of five houses to take care of 10,000 laying hens. The production of hatching eggs will be carried out, Mr. Sims said.
He said it would take a month or so to get into full production, but he expected to add 7-week pullets at the rate of 2,000 every few weeks until he had 10,000 on hand.
The direct Nichols strain of chickens will be used, Mr. Sims said, as he explained he would keep them on the range for five to six months, and then put them in the laying houses.
A contract has been made with one of the South's largest hatcheries to take all the eggs produced at a premium price.

About two months ago Mr. Sims sold his dairy herd, and said he planned to convert at a later date, some of his dairy buildings into the poultry plant. He intimated he would later start off with day-old chicks and raise his own pullets. For the present he plans to buy the 7-week chicks.
The plant will be equipped with automatic feeders, and water system.

Meeting Wednesday May Set School Election Date

Wednesday, Sept. 12th, has been set as a tentative date for a meeting that may decide the where, what, and when of the proposed two million dollar school expansion bond election in Haywood County.
Unless changed by unforeseen circumstances the County Board of Education and the Trustees of the Canton Charter School District will meet with the County Commissioners at the courthouse to arrange details for the election.
The plan to issue the \$2,000,000 in bonds for expansion of school facilities, has already been approved by the State and County Boards of Education. Originally the amount involved was \$3,000,000, but plans were altered and the expense reduced. In addition to the two million, the county will receive \$346,000 from the State bond program.
Under the existing arrangement, the Canton school district would receive 31 per cent of the two million, or about \$606,000. The remaining 69 per cent would be spent on Haywood schools.
The largest individual project scheduled is the Bethel Elementary building which is due to get \$469,700.00. Waynesville High's Vocational building will cost \$330,000.00 and its new elementary building another \$280,000.00.
Crabtree-Iron Duff school is slated to get \$168,000.00; Clyde an even \$100,000.00 for a new physical education building; Maggie, Rock Hill, Lake Junaluska and others will receive \$206,000.00.
These figures, of course, are subject to change, and, in the event the voters decide otherwise, may be no more than wishful thinking. At any rate the meeting Wednesday should decide when the voters are to express their views.

The bond election, set for Sept. 25th, to decide the issue of a recreation center for Waynesville, has been postponed according to J. R. Morgan, Town Attorney.

Reasons for the delay, said Mr. Morgan, include certain legal technicalities and the question of the propriety of issuing bonds for recreational facilities during the present national emergency. The State Local Government Commission raised the latter point, explained Mr. Morgan.
The bond attorneys, Reed, Hoyt & Washburn, employed by the town to handle the matter, urged, in a recent letter to Mr. Morgan, that the bond election be postponed and new proceedings be prepared.

How long the postponement will last is not yet known, but Mr. Morgan explained that some of the difficulties may be overcome as a result of letters ever now in the mail.
Registration books were opened on Sept. 1st, and were scheduled to remain open until Sept. 15th. They were closed Saturday, however, because of the decision to postpone the election, and will remain closed until further notice.

The issue to be voted upon was whether or not \$80,000.00 in bonds were to be floated by the town to pay for a recreational center and a swimming pool. A petition had been signed by a sufficient number of voters to make the election possible.
