

Dairy Cattle Trophies Displayed

Jersey dairy cattle awards won this year by Biltmore Dairy Farms are now on display at the First National Bank. Biltmore Farms, which has the largest herd of Jersey cows in the country, has been the nation's top winner of Jersey blue ribbons—25 first-place awards—at the All-American Show during the last four years. Biltmore also won more prizes than any other exhibitor at the National Jersey Dairy Show at Indianapolis this year. The trophies, both in gold and silver, are insured for \$11,000. Navy Will Have Super Carrier Soon

THE NAVY'S NEWEST carrier, the James V. Forrestal, in an artist's conception as published in Steelways, publication of the American Iron and Steel Institute. Still on the drawing boards, it will be three years before the \$218,000,000 super-carrier is finished. It will be 1,040 feet long and 252 feet wide with a displacement of 59,900 tons, 14,900 tons more than the carrier Franklin D. Roosevelt built in 1945. An airfield on land handling the same number and types of aircraft would require about 140 acres of runways. Longer flight decks, escalators, and bridge and radar installations which retract below deck are some of the features of Uncle Sam's newest floating air base.

Lucky Escape

MINOT, N. D., (AP) — A motorist, Ray Etzler, pinned beneath his overturned truck, jacked up and freed himself all by his lonesome. The Butte, N. D., man was driving with his wife and small daughter when the truck overturned on a slippery road. Etzler was thrown from the machine and pinned under the overturned truck. Etzler managed to get a hand free and reached the jack carried in the truck. With his one free hand, he carefully jacked the machine off his body high enough to allow him to escape. He then freed his wife and daughter.

Manuscript Microfilming Authorized By Vatican

VATICAN CITY (AP) — The Vatican has authorized microfilm reproduction of almost the entire treasure of ancient manuscripts in the Vatican libraries. Heretofore these have been virtually inaccessible, except to students or scientists able to come here to see them. After the filming is complete, it is expected that copies of the manuscripts, by subjects, will be made available for study or record at authorized institutions.

Music In Her Toes

LOS ANGELES (AP) — A 9-year-old girl, who can't hear music because she's deaf, has become a proficient tap dancer nonetheless. Her mother says she feels the music through her toes. The girl's mother, Mrs. Don Rodger, said little Elaine made the discovery by accident. "A record player was on and she suddenly felt the vibrations through a wooden floor. She let out an exclamation, pointed to the machine, then to her ears and feet." Elaine joined a dancing class and is one of the star pupils.

AP Newsfeatures

Dear Judge,

There is nothing more disconcerting to a young beau or belle than to own a lovely evening dress and tuxedo which seldom is worn. Sometimes it has been worn just once at a big frolic, other times—and particularly in the case of the tuxedo—it has been a present from a dotting uncle or aunt or mother or dad, and has never been worn. Well, why not wear dress-up

clothes more often? Ingenious girls could get together and cook up special events that would require formal togs. For one thing a young man in a tuxedo is a lot more fun on a party and is not likely to act younger than his age, as is usually the case with boys in their teens, if he is all dressed up.

One idea to get some wear out of those pretty duds is the Prom House Party or a Sweet-Sixteen get-together.

Little dance cards could be given of the girls just as at a regular Prom. Since each man would then be tied down to dancing each dance—or sitting it out with a gal—there would be no bashful boys or wallflowers on this shindig. He's got to get up on his feet or else!

A buffet supper with party variety foods can be made hours in advance by the hostess, so that even she can have a good time. Tomato juice, apricot nectar or a cold

soup such as mock vichyssoise can be served first. Then small sandwiches—chicken salad, cheese, watercress and cucumber—could be daintily arranged on a tray, garnished with parsley for extra-special table glamor. Trim the crusts off the bread for this occasion. A ham salad is inexpensive and served with au-gratin potatoes (which can be made in advance and popped in the oven at the last minute) is delicious. Add to this a tomato aspic recipe to be found in any cook book, especially decorative if it is made in a fish or animal mold.

For dessert—a fruit salad is easy to do and if enough fresh fruits can't be obtained, canned fruits can be added. If bananas are used, however, don't mix them until just before serving.

An interesting punch can be made by making a strong solution of 2 measuring cups of tea, sweet-

ening it with one-half cup of sugar, or use one of the new non-caloric sweeteners now on the market, one-third cup of orange juice, one-third cup of lemon juice. Mix all together and put it in a punch bowl. Add sparkling water and ice cubes. Be sure to make the tea strong as the ice cubes will melt, weakening it as the evening goes on.

The ice cubes can be made very interesting. Try coloring the water in the tray so that you will have colorful ice cubes, particularly lovely when used in clear glasses. Another fun-idea is to put a sprig of mint in the ice cube compartment before freezing the tray. A cherry can be put in the water to freeze within the clear ice cube.

If your group of boys do not have tuxedos, the girls still can dress up providing the boys can be persuaded to wear a dark blue or other dark suit. The trick is to get the boys into something other than casual clothes which always

makes them feel just the casual. Grasp every opportunity to promote dress-up interest. Parties can be even more fun when a girl has an extra-special way. A notice that even if the boys growl at first at washing and wearing pressed suits soon get into the spirit of also.

Poly. Want A Craze Alkyd resins are most priming coats, enamel emulsion paints. They give gloss, good adhesion and assistance to weathering. You don't know it, alkyd resin product of modified rosin, basic acids with polyvinyl alcohol.

IT TAKES KNOW HOW

... to build a Billion Dollar Company in a short span of 44 years

Organized in 1907, Jefferson Standard today has One Billion Dollars Life Insurance in Force on over 300,000 lives. Assets amount to over \$275 million. A leader in safety margin—\$114 of assets for each \$100 of liabilities. No group insurance—no industrial insurance—all policies individually purchased by discriminating buyers.

IT TAKES KNOW HOW

... to earn enough to pay 4% ... Jefferson Standard Policy Dollars are larger

The investment record of the Jefferson Standard is outstanding in the life insurance industry. This record is the reason Jefferson Standard has never paid less than 4% interest on policy proceeds held for policyholders and beneficiaries.

The payment of 4% includes proceeds from death claims... proceeds from policies that have matured as endowments... the cash value of contracts that are surrendered... dividends left with the Company to accumulate to the policyholder's credit. The 4% interest payment results in greatly increased income dollars to the policyholder or beneficiary. 4% is the highest rate of interest paid by any major life insurance company.

IT TAKES KNOW HOW

...on the part of our Representatives

Jefferson Standard representatives, exercising carefully their hard-won know how, take pride in the Company's unparalleled record. They are at your service with policy contracts that meet every test.
