GLAS L. RIGHTS  
University

Indian has played a more prominent part in the history of the United States in the days of the settlements, than in the days of the nation, or confederations, unless it be the powerful and influential of Iroquois or Six Nations.

## What's a Mountain Vacation Without Square Dancing?

Saturday night is usually square dance time in Western North Carolina dude ranches, but a dance is likely to break out any time dude ranching couples collect. This picture was taken in the spacious lounge at the Cataloochee Ranch. (Photo by John G. Hemmer).

North Carolina and be given the same compensation that was paid to those who were removed to Indian Territory, \$53.33 1/3 each, plus accrued interest. Colonel Will H. Thomas, a friend of the Indians, handled their funds for them, since

they could not legally make contracts. He bought with their money, 50,000 acres of land in the region of Oconolufy River and Soco Creek. Here they were established and became known as the Eastern Band.

During the War Between the States, Colonel Thomas organized a regiment of Indians, known as the Cherokee Legion, that served until the end of the war. When Colonel Thomas, on account of impaired health, was no longer able to administer the affairs of the Indian reservation, there was danger that the land might be sold, but the United States Government came to the rescue and secured the property for the Indians so that Qualla Reservation was guaranteed to them. The first Indian Agent was W. C. McCarthy in 1875. Later the tribe incorporated itself.

Today the land is assigned to families of the tribe. A chief is elected each two years and a tribal council is held regularly. The government provides many free services, including health, roads, forestry, extension and soil conservation. Indian children are given opportunity for education at the government schools. Most of the Indians are farmers and till the soil allotted to them by the tribe. Some of them follow arts and crafts practiced for generations, such as basketry and pottery-making. An annual fair is held that attracts many visitors. In addition to the exhibits, the Cherokee ball game is a banner attraction. Although it has lost much of its ceremonial significance, it is still played with the dash and danger that appeal to the large crowds attending.
