"The Man From the Alamo," Universal-International's rousing Technicolor adventure story which opens Wednesday at the Strand Theatre, will reward all audiences with a sweep of heroic action and suspense that never flags from its memorable opening through the smashing climax at the fadeout.

To Glenn Ford goes one of the meatiest roles of his career, and he tackles with vigor and virility the character of John Stroud, the only man to leave the Alamo alive. His co-star Julia Adams, the fiery frontierswoman who alone believes it is no desert, gets a fine boost up the scale of stardom with her portrayal of Beth Anders.

Taking its inspiration from a great chapter in the stormy history of early Texas, "The Man From the Alamo" opens with the last-ditch defense of the historic fortress as Jim Bowie, Dave Crockett and their comrades await Santa Ana's onrushing armies.

Chosen by lot to slip out of the Alamo and save Ox Bow from impending disaster, Stroud is almost lynched by the aroused people of Franklin because the only ones who know of his mission have now been massacred. What happens when Stroud undertakes to lead the wagon train evacuating Franklin through the lines of a ruthless renegade American band makes for as tense a sequence of motion picture drama as the screen has shown in years.

Chill Willis as an unforgiving Franklinites, Victor Jory as a turncoat, and Hugh O'Brian as a martinet officer, head an excellent supporting cast and help make "The Man From the Alamo" a topnotch piece of dramatic history and theater entertainment.

Zenger Laid Foundation For U.S. Press Freedom

ZENGER IN PRISON—Arrested on a charge of publishing libelous material in the New York Weekly Journal, John Peter Zenger was confined in 1734 for nine months in jail before trial. Yet, during the entire time he was imprisoned, his paper never missed an issue and continued to attack British restriction of American civil liberties. Photo shows figures representing Zenger and his wife, Anna, who visited him regularly in jail, in a diorama at the Zenger Memorial in the Sub-Treasury Building, New York City.

John Peter Zenger fought for a free press even before the United States won its independence. An immigrant from Germany, Zenger landed in the British colony of New York in 1710 at the age of 13. He became an apprentice to a printer and grew up a respected citizen of his community and his church.

During Zenger's career as a newspaper publisher, however, New York had the misfortune to be governed by one of the worst of the king's representatives, William Cosby, Greedy and autocratic, Cosby hoped to wring from the colonists enough money to recoup the fortune he had dissipated in Europe.

With full knowledge of the consequences, Zenger joined the opposition against the governor. In one direction lay safety. In the other, Zenger's principles and sense of public duty.

Zenger made his decision. The lawyer from Pennsylvania, to defuse the issue of his New York Weekly Journal told of a fraudulent election perpetrated by Gov. Cosby in Westchester county. Subsequent issues revealed intrigue and corruption in the Cosby regime.

The governor ordered several issues of the Journal burned, and his attack on Zenger culminated in the printer's arrest for seditious writing. Cosby thought he could insure conviction by placing his chief justice, 30-year-old James De Lancey, in charge of the proceedings.

Zenger's friends brought in Andrew Hamilton, a distinguished lawyer and one of the most historic and significant trials in American jurisprudence.

Hamilton rested Zenger's defense not on legal technicalities, but on a new philosophy of government — the same philosophy so forcefully expressed in the Weekly Journal, Hamilton
