This community would like to take the opportunity during "National Newspaper Week" to express our appreciation of what the newspapers of our county have done for the community and to the newspaper industry. We especially wish to thank the newspapers for their help in bringing the rural folks together as one "family" and by cooperation with the people and the press, the rural folks feel that by making up the C.D.P. program through the newspapers we have helped to make our county make a name for itself.

As a reporter I have found it a pleasure to work with the residents who have moved to our county look forward to receiving the papers. Many boys in service can get the home news in our county papers. We salute our newspapers.
