lina about the same as they do in the sparsely wooded sections of our

General Situation In Haywood Whatever the cause, the situation as it exists in the county today we all agree is a serious one. This situation confronts-and has confronted for the past two years, both stockmen and farmers in general; and during the past few months-the problem of an inadequate water supply for industry has also become acute. Officials at Champion, our largest industry, say that in consequence of this they are, along with other known plants. 'confronted with a multiple probem, one hard of satisfactory solu-

At this writing, and for several days past, no more water is being aken from Lake Logan-it just is not filling up.

The lake is there for anyone to ee; it is at least half dry, and with a still greater proportion of he bottom showing - mud, rock and gullied sand.

In The Upper Pigeon Valley Mrs. Edgar Burnette, of the Cecil community, reports that beause of the very low reservoirs Waynesville librarian, and showing and springs many householders have had to place their own retrictions on the use of wateror instance, washing dishes only One individual display to be feaonce a day.
