Highlanders Meet Here  
To Lay Promotion Plans

(See picture—Page 1, Sec. 2)

Cautioned by the prediction that 1954 will bring increased competition for the tourists dollar, the Western North Carolina Highlanders have launched an area-promotion program designed to provide this region its share of 1954 vacation trade.

Directors of the Highlanders, who met here Saturday in the Park Commission office in the Masonic Temple, drew up a budget for advertising and promotional work and set a goal of 60,000 Western North Carolina vacation weeks as an initial information piece.

Highlander President O. A. Fetch of Fontana Village told directors from eight mountain counties west of Asheville that "1954 is going to be the greatest competitive year we have yet known in the tourist and travel industry."

"The time has come," Mr. Fetch said, "when we must have an all-out campaign to get our share of the industry. Increased advertising and promotion in other recent areas of the United States is being aimed at expanding tourist busi-

ness. To meet this competition and not only hold our gains but increase them we must do a complete selling job.

"Only through complete area cooperation," Mr. Fetch added, "can we expect to compete with other resort areas. We are entering a period where we must make known what we have to offer the prospective tourist. It is a period where the prospective tourist is shopping more than ever."

Fetch expressed gratification over the "keen enthusiasm being shown by the various counties in organization and work" reported at the meeting here which was attended by representatives from the counties of Cherokee, Jackson, Graham, Swain, Transylvania, Clay, Haywood and Buncombe.

He urged directors to go back to their respective homes and work up a good attendance for the first of a series of statewide tourist clinics to be held in Asheville on Jan. 25.

The Asheville meeting which is being sponsored by the North Carolina Department of Conservation and Development, is open to all persons directly or indirectly concerned with the tourist industry, Fetch explained.

"This will be an extremely important meeting," Fetch said, "and it is to the benefit of all persons in Western North Carolina that they attend. Through its new tourist bureau, the state of North Carolina is offering advice and direction and help to all of us and it is up to each one of us to take advantage of this opportunity."

Highlanders Secretary Mrs. Edith Alley reported that the Highlanders headquarters office here is being maintained and that since the first of the year an average of between 15 and 30 inquiries about visits to the area are being received daily.

"Inquiries for early spring vacations in Western North Carolina are far above those received for the same period last year," Mrs. Alley said. "These are being processed and proper information about the area is included in each answer."
