FILM SCHEDULE
March 8 - April 2

1. **ATOM AND MEDICINE**—12 minutes, sound, black and white. Dramatically shows how, by taking radiiodine internally, one man's condition was diagnosed and cured. Describes the increasingly important role of radioisotopes in hospitals, clinics, and doctors' offices. Clarifies misconceptions about the handling, cost, dosage, and alleged dangers of radioisotope diagnosis and therapy.

2. **BY MAPS AND COMPASS**—26 minutes, sound, black and white. Proper use of map and compass is vital education for those who roam uncharted areas and wilderness for recreation or in pursuit of their vocation. It is also the foundation of an important new sport—Orienteering—which has grown by leaps and bounds since its inception in Sweden more than thirty years ago.

3. **CARIBBEAN**—25 minutes, sound, black and white. This film essays to give the world a closer view of some of the principal islands of the West Indies, with their ancient customs and memorials, their widely different population, their new generations, and the modern problems they have to solve.

4. **FORTY-NINTH STATE**—25 minutes, sound, black and white. Hawaii has much to offer—and to gain—by becoming a member state. A vast tourist trade is attracted each year by the wide beaches and mild climate. The film shows the customs, dances and everyday life of the native Hawaiians and of the Japanese population.

5. **NATURE'S PLAN**—14 minutes, sound, color. A complementary film to *Man's Problem*, it de-

scribes the water cycle as nature's plan for providing all living things with life-giving water. Natural and time-lapse photography combine with animated drawing to clarify the mechanics of the water cycle and to describe and contrast vari-

ous water cycle patterns in North America.

6. **PHANTASY**—8 minutes, sound, color. A surreal abstract art film, with pastel drawing and "cut-out" animation by Norman McLaren and music for saxophones and

synthetic sound by Maurice Blackburn. In a dreamlike landscape, inanimate but familiar objects come to life to disport themselves in grave dances and playful ritual.
