### Film Schedule Is Announced By Library

The following films will be available at the Haywood County Public Library from April 12 until May 2, according to an announcement by Miss Marjorie Beal:

April 12 - May 2

1. **Bicycle Safety**—10 minutes, black and white, sound. A concise, forceful film, made to promote safe riding habits among the boys and girls who ride bicycles. Points out that bicycle riding is fun, but that it entails certain responsibilities: to maintain the bicycle in good mechanical condition, to obey traffic rules and to watch out for others. Explains and demonstrates the rules of the road and other safety practices for bicycle riders.

2. **Choosing Your Marriage Partner**—14 minutes, sound, black and white. Describes the problem of Joe, a college student who is trying to decide which of two girls he should marry. The marriage counselor suggests an evaluation of the girls on the basis of emotional maturity, family background, philosophy of life, and harmony of personalities. Joe also realizes that he must evaluate himself.

3. **Germany**—10 minutes, sound, color. Provides an interesting pictorial overview of Germany today—her scenic points of interest and historic shrines, aspects of her industry and agriculture, and salient facts concerning her people and their heritage.

4. **Historic New England**—20 minutes, sound, color. Not a travelogue. It places primary importance on the historical, economical and geographic significance of the six New England States.

5. **Lament**—18 minutes, sound, black and white. Features Jose Limon who interprets in the idiom of modern dance a poem by the Spanish poet Garcia Lorca. He appears as a Spanish bullfighter, tempted by Love and by Fate, who meets his death in the ring.

6. **Man's Problem**—17 minutes, sound, color. A sequel to the film *Nature's Plan*, this film makes amazingly clear our absolute dependence on an adequate supply of clear fresh water.

**MOBILE JEWELRY**  
Parisian jewelers are developing designs with emphasis on pliability. Large drop diamonds tremble like heavy fruit on clips made up of small leaves, each mobile. Jewel-bearing stamens in the center of flower clips are of flexible gold or platinum wire to make them mobile.

### Crabtree-Iron Duff Students Undergo Dental Exams

By MRS. MILLARD FERGUSON
