The entire charge will join in attending the sunrise service at Lake Junaluska on Easter Sunday, and the morning worship hour at the Maggie Methodist Church. The minister will preach upon the subject: "Present—Tense; Future—Perfect." The choir will present special music under the direction of Mrs. Ross Caldwell.
The young people of the Shady Grove Church will present an Easter program on Sunday evening at 7:30 entitled "It Happened On An April Day". The entire charge is urged to attend.
The morning worship hour at Hemphill will be held at 9:45 a.m. followed by Church School at 11:00 a.m. under the direction of Roy Shelton, Superintendent.

Christ the Living Lord

ILLUSTRATED SUNDAY SCHOOL LESSON

By Alfred J. Buescher

On the first day of the week, Mary Magdalene went early to Jesus' tomb; she found the stone rolled away and the tomb empty. She ran and told Simon Peter and John, and they looked, found the tomb empty as Mary had said.

Peter and John went home, but Mary returned to the tomb and saw two angels who asked her why she wept? Because her Lord had been taken away, she said. Turning she saw Jesus, but did not know Him until He spoke her name.

In the evening of the same day, as the disciples were assembled with the doors locked because they were afraid of the Jews, Jesus stood in the midst of them, saying, "Peace be unto you, and showed them His hands and side."

Thomas, who was not present when Jesus appeared to His other disciples, doubted His resurrection, but when the Lord again appeared and Thomas saw His wounds, he too believed.

MEMORY VERSE—John 20:29.

The Golden Text

Risen Lord and Mary Magdalene.
"Blessed are they that have not seen, and yet have believed."
—John 20:29

Make your own "proving ground" test

... and we know this is what you'll find

Chevrolet is out ahead in powerful performance

Chevrolet is out ahead in economy

You can easily tell the difference between engines when you drive—and the difference is all in Chevrolet's favor! That's because Chevrolet's great engines deliver full horsepower where it counts—on the road. What Chevrolet promises, Chevrolet delivers!

There's new power, new performance and new economy in both 1954 Chevrolet engines—the "Blue-Flame 125" in Powerglide models and the "Blue-Flame 115" in gearshift models. And they bring you the highest compression ratio of any leading low-priced car. That's why they can deliver a big gain in power, acceleration and all-around performance, along with important gasoline savings!

Your test car's ready now... We'll be glad to have you compare the smooth, quiet performance of this new Chevrolet with any other car in its field. Come in and put it through any kind of "proving ground" test you care to, and judge its performance for yourself. Your test car's ready now and we hope you are, too.

Electricity from an Electric Company

Electricity from the Federal Government

Two kinds of electricity WHICH DO YOU GET?

Four out of five people get electricity from the more than 800 business-managed electric light and power companies. These companies have tripled their supply of electricity in 15 years. And they have cut the average family price per kilowatt-hour by one-fourth.

The other kind of electricity is produced by the federal government and distributed to several million families and businesses. The differences between the two are important. They affect you, your pocketbook and your future. Compare the differences:

- COMPANY ELECTRICITY**
1. Its prices are strictly regulated by people chosen to represent you.
 2. It is available to everyone—without discrimination.
 3. It comes from plants paid for by many thousands of investors.
 4. It plays an important part in the free enterprise system of a free and strong America.

- GOVERNMENT ELECTRICITY**
1. Its prices are exempt from normal regulation.
 2. Certain favored groups have first call on it.
 3. Its plants take tax money badly needed for other purposes.
 4. It puts the federal government in business—it points to a government power monopoly—and socialism.

When you hear talk of a new government power project, ask these two questions: Is it really necessary? Is it a job that can be done without tax money by America's business-managed Electric Light and Power Companies?
