

Two Canton Men Receive Diplomas From Carolina

Albert Cline, Jr., and James B. Patton, Jr., were among the 114 Western North Carolina graduates at the University of North Carolina, to receive degrees in final exercises recently.

Cline, son of Dr. and Mrs. A. P. Cline of Canton, received the degree of Doctor of Dental Surgery in the University's first class of dental school graduates. He is a graduate of the Canton High School, and Baylor School for Boys in Chattanooga, Tenn. He received his AB degree at Duke University in 1950. At Duke he was a member of the KA honor society. He was a member of Xi Psi Phi at Carolina.

He plans to take both the South Carolina and North Carolina state board. He has volunteered for service in the U. S. Navy, and has received a commission of Lt. (jg). He is scheduled to report to Norfolk for induction July 15. He will be stationed later at Camp LeJeune. Cline is married to the former Miss Beatrice Medford of Waynesville. They have a year-old son. After his tour of duty in the Navy, the young dentist and family expect to be located in Canton.

Patton is the son of Mr. and Mrs. J. Ben Patton of Canton. He is a graduate of Canton High School. He received his degree in Pharmacy in exercises recently.

While at the State University he was a member of the Carolina Pharmaceutical Association, the American Pharmaceutical Association, and the Alpha Gamma Chapter of Phi Delta Chi Frater-

Talent Hunt Set At CHS On July 1

The Champion YMCA is sponsoring a Talent Hunt show at the Canton High School auditorium, Thursday, July 1, at 8 p.m. to select talent to appear on the Arthur Smith Television Talent Hunt to be held in the Canton High School Stadium on August 7.

The Talent Hunt, to be held on July 1, is an elimination show to screen talent for the Arthur Smith show. A limit of 10 people can be accommodated on the final show.

Any type of talent can be included such as singers, dancers, quartettes, and string bands. Only those selected as the 10 best on July 1 at Canton High School will be allowed to appear on the Arthur Smith Show August 7.

In addition to selecting the 10 best, the Haywood County Community Development Program will give an award to the community with the best over-all talent presented.

All persons desiring to participate in the Talent Hunt should contact Champion YMCA or the Community Development Program for registration blanks.

Admission to the Talent Show on July 1 will be 50 cents for adults and 25 cents for children under 12.

German Radio Popular

BONN, Germany (AP) — Resurgent Germany is moving into overseas broadcasting in a big way. The Deutsche Welle (German Wave), in operation just a year, has won a big audience throughout the world. It's the German equivalent of the Voice of America, the British Broadcasting Corporation's overseas broadcasts and Russian short-wave broadcasting.

This year the Germans will start building the most powerful short-wave transmitters ever used for German overseas broadcasting — 200,000 watt transmitters now in use. Broadcasts will be added in English, French, Spanish and Portuguese. Deutsche Welle now broadcasts only in German.

Deutsche Welle has won faithful listeners from Moscow to Chile and from Japan to South Africa.

ntly, a Professional Pharmacy Fraternity.

The powerful new Fordson Major Diesel tractor, manufactured by Ford Motor Company, Ltd., of England, is being introduced in the United States by Ford tractor dealers. The rugged orange and blue diesel weighs approximately 5,600 pounds and has six forward and two reverse speeds. The four cylinder overhead valve engine has a compression ratio of 16:1 and a 220 cu. in. piston displacement.

Parkway Motors Is Agency For New Fordson Tractor

A new tractor with plenty of economical power for farm and industrial work — the Fordson Major Diesel — is being introduced in this area by Parkway Motors, Inc., Ford tractor and Dearborn farm equipment dealer.

The 5,600-pound blue and orange diesel tractor, now being sold and serviced in this country for the first time, has earned a reputation as a powerful yet economical source of power. Three-point linkage and a vertically adjustable swinging drawbar permit the tractor to be operated with a wide variety of implements, both mounted and pull-type.

The Fordson Major Diesel has a constant mesh transmission with six forward and two reverse speeds. Forward speeds at 1,600 r.p.m. range from 2.07 to 13.16 m.p.h.

Years of diesel engine research have resulted in many new features to assure long, economical operation. The 4-cylinder overhead valve engine has a compression ratio of 16:1 and a 220 cu. in. piston displacement. A rigid cast iron cylinder block is used with centrifugally cast, easily removable cylinder sleeves.

The five-ring aluminum pistons are recessed at the top for maxi-

mum turbulence of the fuel mixture which is injected from a 4-hole nozzle injector. Fuel passes through four filters before reaching the combustion chamber.

Tests reveal this diesel is capable of developing more than 5,000 pounds of sustained drawbar pull. It is rated as a 3-4 plow tractor.

Hydraulic power for mounted implements is supplied by a gear type pump, developing 2,000 pounds per square inch pressure, which is operated by the power take-off shaft. It has provisions for attaching remote hydraulic cylinders for use in controlling semi-mounted and pull-type implements.

Ball and nut steering with a 27 to 1 ratio provides easy steering control with less fatigue for the operator.

For row-crop work, this 4-wheel tractor is equipped with 1100 x 38 rear tires, and the wheel treads are adjustable from 52 to 72 inches. Another model is equipped with 1400 x 38 rear tires.

"We are happy to bring this great diesel tractor to our customers," said E. Norris English, vice president and general manager of the newly formed Parkway Motors, Inc. "Its rugged construction and economy of operation already have

Asheville Amphitheatre Productions Announced

Lanny Ross, top radio, television, stage, and screen star, has been signed as one of the soloists in the first production of the new Asheville Musical Theatre Festival, Inc.

The announcement was made by Charles H. Blake, producer of the series of musical attractions planned for the Forest Amphitheatre in Asheville.

Virginia Curtis, one of the featured stars of television's "Show of Shows," will co-star with Ross. Blake stated local performers will have an opportunity to appear on the same bill with the professional guest artists. The first show, "A Concert of Hits From Broadway Musicals," opens July 8, 9, and 10.

Included in the initial production will be music by Rodgers and Hammerstein, Porter, and Kern, from such hits as "South Pacific," "The King and I," "Carousel," "Oklahoma," "Show Boat," and "Kiss Me Kate." Additional shows are scheduled for the summer series.

Auditions were held last Thursday and Friday at the Asheville YMCA, and finals on Saturday night in the basement of the Asheville City Auditorium.

Opportunities to sing in the Forest Choir during several productions will be offered, and from these, voices, soloists will be chosen for appearance with the guest stars in special numbers.

Other productions scheduled are: "Ole Man Wilson's Show," songs and dances of the mountains, July 15-17; "In the Good Old Summer-time," a summer revue, July 22-24, and Franz Lehár's popular operetta, "The Merry Widow."

The U.N. Food and Agriculture Organization thinks that it should be possible to produce 50 per cent more rice on areas now planted in that crop.

Student Exchange

LONG BEACH, Calif. (AP) — Esther Backstead, a student at Wilson High School, and Janine Vertanian, of Paris, France, have exchanged schools. But their switch has produced more than travel and education.

Janine has become engaged to an American surgeon, Dr. Harold Peters of Los Angeles. They'll honeymoon in France.

Her mother reports Esther may marry a lawyer she met in Europe

Sunny Rain Needed

HOLLYWOOD (AP) — A movie studio was shooting a murky weather scene and the script called for some rain-making machines to provide the necessary sprinkles in the right places.

Everything went along fine until the sky clouded up and it began to rain. The director ordered the rain-making machines turned off, the equipment packed into trucks and the film shooting halted.

"We'll have to wait until a sunny day to film the rain scene," he said.

Muddy Research

CHARLOTTESVILLE — Scientists here are spending a lot of time playing with mud. They must know the consistency and strength of the mud before construction starts. A 7,200-foot underwater tunnel under the Hampton Roads bridge from Norfolk to Willoughby, Va., is being built. The Council of Highway Engineers and Researchers is doing the job. Mud is being taken from holes as deep as 200 feet.
