

# Hazelwood To Meet Beacon Mills At 3:30 Wednesday On WTHS Field

PRINT will be among the series of 19 drawings by the famous naturalist, John James Audubon, to be exhibited from June 30 through July 10 at the First National Bank. The exhibit is being brought to Waynesville by the L. N. Davis Co., agents for The Travelers Insurance firm.

YOU ARE CORDIALLY INVITED TO ATTEND A SPECIAL EXHIBITION OF **AUDUBON ANIMAL PRINTS** Through The Courtesy Of THE TRAVELERS INSURANCE COMPANY JUNE 30 - JULY 10 AT THE FIRST NATIONAL BANK Sponsored By THE L. N. DAVIS CO.

## Famous Audubon Prints To Be Exhibited At Bank

The Travelers Insurance Companies' collection of rare Audubon animal prints will be exhibited at the First National Bank from June 30 through July 10. The exhibit is being brought to Waynesville by the L. N. Davis Company Agents, for The Travelers.

Although J. J. Audubon is known chiefly for his collections of bird drawings, actually some of his finest work is represented in this collection of prints of animals native to America.

The exhibit is made up of 19 hand-colored lithographs, the first of which appeared in 1845 after completion by the artist of his bird studies.

Most of the prints in this series were lithographed, printed and colored by J. T. Bowen of Philadelphia. Bowen must be given considerable credit for giving life to Audubon's originals.

In the animal prints, the same attention to detail which made Audubon's birds so noteworthy, is apparent. Each of the animals depicted is shown in his native habitat, with nice bits of scenery in the background.

While many of the bird studies were done in England, Audubon made his animal drawings here, on the scene.

The Audubon animal prints comprise one of 12 exhibits sponsored by The Travelers. The Companies also own seven exhibits of Currier and Ives prints, used in the annual calendar and three exhibits of the original paintings used in National Geographic Magazine advertising.

### Rev. Teague Assists At His Home Church

The Rev. Jarvis Teague, a native of White Oak, is assisting the Rev. R. P. Hicks in a revival which began at the White Oak Baptist Church Sunday to continue through next Sunday, July 4.

Rev. Teague, back at his home

### MORE ABOUT

#### Mrs. Alley

(Continued from page 1)

ex-officio member of the board Harry Davis, director of the Cherokee drama, told members of the association that he has his best cast since the opening in 1950.

Carol White, general drama manager, said all indications point to a good season. He reported that advance reservations are well ahead of last year.

At a session of the association's executive committee, Chairman Buchanan appointed a three-man committee to supervise the organization's educational, religious and cultural program.

He named Joe Jennings, of Cherokee as chairman. Other members are Ferebee and McKee.

Kilpatrick was named chairman of the association's scholarship committee to succeed George M. Stephens, of Asheville.

At a meeting of WNCAC, in Cherokee presided over by President Paul Reid of Cullowhee, progress reports were made on various projects, including the Park, the Parkway, Pisgah and Nantahala national forests, the WNC Highlanders, Inc., Brevard Music Festival and the Transylvania Music Camp.

M. A. DeVoe and H. E. Hudson of the TVA attended the WNCAC meeting. Hudson, who has worked closely with the organization, announced that he is retiring from government service July 1.

In a report on Western Carolina College at Cullowhee, President Reid said WNCAC "has been most helpful to the growth and development of the college."

He said some 500 students are now enrolled for the first term of summer school.

WNCAC adopted a resolution calling on Governor Umstead to appoint a member from the western area on his proposed commission on education.

This resolution, said in part: "Due to the recent U. S. Supreme Court decision on segregation, the commission should make a further study of education in the state and we wish no precipitous action to take place."

church this week, is presently pastor of the noted Meherrin Church at Murfreesboro, which will celebrate its 225th anniversary this year, and is believed to be the oldest Baptist institution in North Carolina.

## Rhymer Will Pitch For Locals

Idle last Saturday, Hazelwood will get back into the fight for the leadership of the Western Carolina Industrial League here at 3:30 p.m. Wednesday against the Beacon Mills team from Swannanoa.

The local baseballers were only one half a game out of first place after whipping league-leading Enka last week, but their idleness cost them one game as the Rayonites won their tilt to forge ahead by one and half games.

In two previous meetings, Hazelwood has defeated Beacon twice. Manager Bill Milner has nominated Junior Rhymer to pitch and Walt Spence to catch. Other starters probably will be:

Dee Stephenson, shortstop; Floyd Teas, first base; Lonnie Bishop, second base; "Pig" Troutman, third base; Babe Yount, left field; Milner, right field; Bob-Pitts, right field, and Elmer Dudley, utility.

In games last Saturday, Enka beat Ecusta, 5-1, and Martel slaughtered beacon, 18-1.

## State College Answers Timely Farm Questions

**QUESTION: Is it advisable to store unshucked corn?**

**ANSWER:** Generally speaking, no. It is very difficult to control insects in unshucked corn, unless it can be put into a tight area for fumigation. Dusts containing synergized pyrethrum may suppress the spread of insects from ear to ear in unshucked corn, but will not control weevils within unshucked ears. Some of these dusts, however, when used on shelled corn that is dry, uninfested, or very slightly infested, appear to prevent insect damage for two or three months. It must be noted that a few of the different dusts on the market cause a down-grading of the corn.

**QUESTION: Do legume crops require large amounts of lime in the soil?**

**ANSWER:** Legumes generally have a high lime requirement. Ladino clover, a legume, showed an increase in value of \$40 per acre after one ton of lime was added on highly acid soil, \$49 when two tons were applied, and \$52 when three tons were added. The soil being highly acid insured a return from money spent for lime over a longer period.

**QUESTION: Can catfish be successfully raised in farm ponds?**

**ANSWER:** Yes, catfish have been raised successfully on a commercial basis in farm ponds. However, the most profitable ventures with this species of fish have resulted from taking small fish from small streams and growing them to edible size in large farm ponds. The majority of catfish will not spawn successfully in ponds.

## DEATHS

**MRS. LAURA W. PRICE** Funeral services were held Saturday at 3 p.m. in the Sardis Methodist Church for Mrs. Laura Price, 66, who died Thursday in her home at Candler, Route 2, after a long illness.

The Rev. Vernon Hall officiated and burial was in the church cemetery.

Pallbearers were Kenneth Murphy, Wayne White, Frank White, Wilson Caldwell, Clay Woody, and

Paul Woody. Mrs. Price was a native of Haywood County and had resided in Buncombe County for a number of years.

Surviving are the husband, Charlie William Price; one son, Vance of Asheville; one daughter, Mrs. Ivan Gayheart of Candler, Route 2; two brothers, Jason and Ernest of Haywood County.

Also six sisters, Mrs. D. W. Caldwell of Canton, Mrs. Carl Woody of Canton, Mrs. Hiram Caldwell of Waynesville, Mrs. Viola Burrie Burress of Lenoir,

Mrs. Russell Murphy of Candler, and Mrs. Myrtle Messer of Lenoir; and 10 grandchildren.

Garrett Funeral Home was in charge of arrangements.

Population of the world's continents, not counting Russia, is 207 people per acre in Europe; 122 in Asia, 23 in North America, 18 in Africa, and 16 in South America.

Hard of hearing people who are fitted with hearing aids often see better.
