Mr. Farmer-

Here's a suggestion which will save you time and trouble

CIROLINA Power & Light Company has an advance payment plan designed especially for the convenience of farmers and others who plan their financing on a yearly or seasonal basis.

This plan was suggested by farmers years ago and has been used by an increasing number of thrifly customers each year . . . that's why we know you'll like it.

Advantages to you---

It does away with monthly trips to the place where you pay your electric service bills, or saves you the bother and expense of mailing your check or money order each month.

When you pay in advance, you have one less chore to do each month.

Under this plan you make a payment in one lump sum to take care of your electric service bills for as long as a year in advance. Your money is credited to your account. The monthly bill you receive will be shown as a charge against your advance payment and the unused balance will be shown also. You may pay for as much as a year in advance if you wish, or for any length of time suitable to you.

Come in and let's talk it over!
