Not - So - Flat Look

DIOR SILHOUETTE, U. S. VERSION . . . Here are the first America adaptations of the controversial flat-chested silhouette introduced by Christian Dior in Paris. At left is a black taffeta afternoon dress with long-torso lines, the skirt flaring below the hipline. Note that the bosom is rounded, not flattened, and the waistline is indented, but not as sharply nipped as previously. At right is the sack jacket suit in pale gray worsted, with side darts achieving the new modified bustline. Both are designed by Andrew Arkin, who modified the Parisian style to American tastes.

Two Dollars Per "Sculp"

Massachusetts grows 60 per cent of the U. S. cranberry crop.

During all this time game animals were plentiful, such as bears, wolves, deer and wild boars. Also raccoons, foxes, opossums, skunks, muskrats, mink and ground hogs were abundant here. A lucrative business was done by many hunters and trappers in the dried pelts of these last-named animals. There were no restrictions or regulations whatsoever on either hunting or fishing; on the contrary, a bounty was paid by the County Court to encourage the taking of wolf "sculps"—two dollars per head, since the wolves often made depredations on stock out in the range.

Wife Preservers

A quick home remedy for removing grease spots from upholstery and rugs is to mix baking soda with water to make a thick paste. Apply the paste to the stain and let dry. Remove with a brush or your vacuum cleaner. If the stain hasn't disappeared, repeat the process.

The topic for Mr. Brendall's first sermon will be "Trouble." Joe Emerson Rose, celebrated hymn singer, will be the guest soloist and officials and employees of Welleo Shoe Company will attend the service as a special group.

New FORD THUNDERBIRD

A personal car of distinction ...with Trigger-Torque performance

You'll be delighted at the wealth of conveniences the Thunderbird offers. Two tops are available: a disappearing fabric top . . . and an easy-to-lift-on hard top. The extra-wide vinyl upholstered seat is foam-rubber-cushioned . . . power-operated 4 ways. Windows roll up . . . by power, if you like. There is a tachometer . . . and a clock with a sweep second hand. There is a telescoping steering wheel. And you can have power steering and power brakes.

Something totally fresh is here—a bewitching new all-steel beauty that sets the styling keynote for other Ford cars to come.

But, styling gives the merest hint of what the Thunderbird has to offer. In traffic and on the open road the Thunderbird's Trigger-Torque performance is literally a revelation. Here is hair-trigger response . . . fleet, liquid agility . . . backed by a reserve of swiftness, sure power to meet safety's every demand. Trigger-Torque performance stems from Ford's new Thunderbird Special V-8—a high-torque engine with 4-barrel carburetor, dual exhausts, wide-opening valves and Ford's famous low-

friction design. And you can have the Thunderbird with the transmission of your choice—Conventional, Overdrive, or new Speed-Trigger Fordomatic.

Ford's Ball-Joint Front Suspension not only velvet-cushions your ride, it also allows the Thunderbird to handle with utmost ease—to corner with greatest stability.

But, more important, the Thunderbird is the product of the same advanced engineering . . . the same manufacturing skills that have made Ford products so dependable, so value-full and so desirable to so many.
