

Intemperate Snooze

BRIDGEPORT, Conn. (AP) — Judge Meyer Dworkin sent Robert Wenman, 40, to jail for 30 days because he got drunk and fell asleep in a hallway. The hallway led to the headquarters of the Women's Christian Temperance Union.

More than 25 per cent of the nation's 18-to-21-year olds now attend college.

My Favorite Stories

By CARL GOERCH

During a recent session of the legislature, Dr. Seabrook, president of the Fayetteville State Teachers College, brought the glee club from that institution to the capitol where they rendered several selections to the delight of the legislators. They were so good that I immediately asked them to go down to WPTF with me so that we could make a recording for use on my Sunday evening radio program.

They readily consented to do so. We went down to the studio, had the recording made, and I left it with Gary Morrison and told him to use it as my program for the following Sunday evening.

Sunday afternoons, after dinner, I usually take a nap. About five o'clock I get up, take a bath and get ready to go down town for the broadcast. But on this particular Sunday, I followed a different procedure.

About 5:15 a voice sounded from downstairs: "You'd better get up if you want to get down to the radio station on time."

"Oh, there's no hurry." "It's after five o'clock." "All right, I'm getting up."

Dressing was a leisurely process, accompanied by two or more admonitions to show more speed. At about quarter to six I was ready to leave.

But instead of going on down to the studio, I drove around to Jim Battle's house and asked him to go back home with me. On the way, I explained what it was all about. He promised to cooperate.

When we got out of the car, we walked across the front lawn and stopped to examine some of the spring flowers that were coming up.

"What in the world are you doing back here?" demanded a voice from an upstairs window. "I thought you had gone to the studio."

"We've got plenty of time," I yelled back.

"All right; but if you're late, don't blame me."

"I'm not going to blame you."

It was a little after six by that time. Battle and I walked to the side of the house and inspected some box woods that had been planted about three years ago and were slow in developing. He made several suggestions relative to hastening their growth.

"Do you know it's quarter past six?" inquired the same voice from upstairs. "I declare you're going to be late if you don't get away from here immediately. And even now, you'll just make it by the skin of your teeth."

"We won't be late," I assured her confidently. "I want to read Jim a letter I got this morning from a fellow in Greensboro."

We went inside and I started reading the letter. In a couple of minutes my wife came downstairs. "Are you going down to the stu-

'Whim House' Shows Off Beautiful Rugs And Floors

By JANE EADS

NEW ORLEANS—As I often do at cocktail parties in the swank embassies in Washington, I worried about the guests dropping ashes and crumbs on the lush rugs!

The rugs in the handsome home of the very wealthy Mr. and Mrs. Edgar B. Stern, party hosts to members of the Democratic National Committee who attended their big pow-wow in this romantic city, were not ordinary, nor were the floors for that matter.

Some of the rugs were rare Aubussons, but Mrs. Stern told me the ones in the dining room and hall were even rarer Karbargs. "They're the ones most admired," she said. "They have been on the market only recently. Before the Russian Revolution they all went to the Czar." Equally admired at this party were the floors, which were described as a Brazilian veneer of South American rosewood. The beautifully grained dark wood, with its lovely patina, comes from the Jacaranda tree, which Mrs. Stern says she has always loved.

Mrs. Stern's good-looking young son Philip is senior editor of the Democratic Digest. She is the daughter of the late Julius Rosenwald of Chicago and sister of Less-

Kingham sound his final fanfare, and just in time to hear Gary say: "Ladies and gentlemen; Mr. Carl Goerch."

My wife's mouth was wide open. She stared at the radio, and then suddenly my voice sounded forth. But Battle couldn't stand it any longer. He almost fell out of his chair laughing. My wife looked first at him; then at me. An expression of utter disdain came over her countenance as she got up to leave the room and exclaimed: "You think you're mighty smart, don't you?"

It took almost two hours to get her back into a good humor again.

ing Rosenwald of Philadelphia, whose generous gifts have helped to build the rare book section of the Library of Congress.

The Sterns, who received more than 400 politically prominent men and women from all parts of the country at the top of a beautiful winding staircase, were hosts later in the week to Democratic leader Adlai Stevenson. The guest house at the end of the formal garden, floodlighted for this night, was "Gov. Stevenson's home."

"The family named it the Whim House," Mrs. Stern, a pretty, young-looking blonde told me. "It's one huge room with bath, kitchenette and in-a-door bed." She said the furnishings were of the 18th century period and that there was an unlisted phone and "hoped Gov. Stevenson would be able to get a good rest."

The playroom adjoining the tennis court is where Mrs. Stern puts in a great deal of time. Here she receives many civic groups, with which she is actively associated.

Her biggest interest is in the Voters Service, of which she is chairman. "We are non-partisan and serve every voter in New Orleans parish and have kept a complete record of each of them during the six years we've been organized," she said. "In other words, we have some 200,000 problem children. We have only the Democratic party here, but there are so many different factions."

In addition to Philip, the Sterns have another son, Edgar B. Stern, Jr., who owns and operates New Orleans' only TV station, and a daughter, Mrs. Thomas B. Hess, of New York.

"Old Ironsides," the famous, still preserved U.S.S. Constitution, had a sister ship launched in 1797 christened the U.S.S. United States. She was nicknamed "Old Wagon" because she was so slow and heavy.

CONVICTS USED IN RADIUM TEST

TWO OF FORTY CONVICTS in the Illinois State Penitentiary, at Joliet, who volunteered to become guinea pigs in a scientific test, are shown breathing into special respiratory helmets. Dr. Andrew F. Stehney, of the Argonne National Laboratory, is adjusting a valve on the air line. The study was made to determine the amount of radium retained in the body from drinking water in which there is a natural concentration of radium. (International Soundphoto)

You Can Find Privacy Which Royalty Misses

By JANE EADS

WASHINGTON — Young Joe Doaks and his wife Mary have a most precious something that Rezi and Soraya, with all their riches, have not—privacy, and the right to mosey along the highways and rubberneck at will.

The handsome Shah of Iran and his Empress wanted most of all to travel incognito over the United States on their current visit. Protocol and protection required that the young rulers be given the velvet glove and pistol-packing treatment — like all important foreign visitors.

state, all the formalities were adhered to with meticulous care, even to advance notices informing newsmen and women how to address the couple at a press reception. They were to be called "Their Imperial Majesties," and the Shah's wife was an "empress," not "queen." Secret Service details accompanied them wherever they went.

For a brief moment, however, Their Imperial Majesties got to play like Mr. and Mrs. Doaks during their Washington sojourn. After their luncheon with President and Mrs. Eisenhower at the White House they took off in a limousine for a real gander about the city.

Most people still don't believe it. But it is true. And when you look into the facts, you'll find these two solid truths: Buick is one of the "Big Three" in sales volume—and hotter this year than ever before. And Buick is one of the "Big Three" when it comes to prices which make such popularity possible. The price we show here proves it. So why not get what a Buick has to offer, if you are in the market for a new car? You find that the dollars you pay for Buick buy you a lot more automobile—and the sheer satisfaction that comes with bossing a brawny traveler of this caliber. You find it in the record-high V8 power that gives life to this spirited performer. You find it in the soft and-level and cruiser-steady ride that comes of all-

coil springing and torque-tube stability. You find it in the extra roominess, the extra frame strength, the extra tread width, the extra silencing—all part and parcel of every Buick. We could tell you about the little things, too. Things usually charged for as "extras" in other cars, but yours as standard equipment at no extra cost in every Buick. Things like direction signals, oil-bath air cleaner, full-flow oil filter, automatic lighting in glove and trunk compartments—and so on.

But—you get the idea. This is a buy, this '55 Buick—a great buy—and a thriller from the instant you press its gas pedal. Come in this week and check things for yourself, won't you?

*2-door, 4-passenger Buick SPECIAL Sedan, Model 48, illustrated. Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains, such as Heater & Defroster... \$81.70; Radio & Antenna... \$92.50.
