

Valentine Dance Planned Friday

A Valentine dance will be held from 9 p.m. until 12 Friday night at the Elks Club under sponsorship of the Haywood County Employment of the Physically Handicapped Committee.

Proceeds will be used to finance projects carried on by the county EPH group, headed by chairman Lee Davis.

Arthur Moon and his orchestra will play for the dance.

Military Records

LANSING, Mich. (AP) — Local people, led by a housewife with a son in the armed forces, have sent more than 3,000 phonograph records to servicemen in Germany, Iceland, Korea and Alaska. Three phonographs and some 1,500 books and magazines also were donated in a "Disks for Doughnuts" campaign started by Mrs. Fred Vanderrlip.

A newspaper and radio station joined in the campaign. At one point, the Air Force said it might not be able to furnish space in a plane to transport the gifts. Mrs. Vanderrlip offered to pay the \$300 shipping charges and then take a job until she could make it up again.

Drove Rubinstein

ERNEST La MEDICA, a cab driver, is shown reporting to police in New York about driving Serge Rubinstein home from a night club the night the playboy financier was strangled. La Medica said Rubinstein was accompanied by a woman said to be Estelle Gardner. (International)

Science Fights Noise

ANN ARBOR, Mich. (AP) — Richard N. Hamme, research physicist, heads a staff of acoustical and electronics engineers whose aim is to trap sound and to some extent destroy it. They are working to lessen sound on naval ships to avoid detection by enemies and in aircraft to help eliminate pilot fatigue.

One of the weapons in the battle against sound is a large room built on its own foundation, completely independent of the building that surrounds it. It has 12-inch concrete walls, especially hardened on the inside to keep sound in.

There is a giant paddle, 8 x 16 feet. Hamme explains that sound bounces around in different wave lengths. The paddle mixes it up to make it as equal as possible all over the room.

The staff will determine how long it takes sound to die in the room when it is empty, then with varying objects in the room. It then can figure what objects or materials absorb it most readily.

Hamme says there is a much easier way of ridding the world of noise: "Just pull the switch. But the world won't buy that, of course."

DON'T LET THE POP TAX PICK YOUR POCKET

SPECIAL 15% SALES TAX ON SOFT DRINKS

HOW DO YOU FEEL ABOUT NUISANCE TAXES?

There is a proposal before the Legislature to impose a nuisance tax on soft drinks in North Carolina. This proposed tax would raise the price you pay for soft drinks by 20 per cent. In other words, you'd be taxed extra for enjoyment of a low-priced, wholesome pleasure! How do you like the idea of paying a 20 per cent penalty on soft drinks? What are you going to do about it?

Help us defeat this unsound, unfair tax that would fall hardest on groups—such as children and working people—least able to pay it.

THIS IS YOUR FIGHT, TOO!

Here's How the Bottling Industry Stands

"We ask no special favors and we seek no exemptions. No business has the right to expect to escape fair taxation—but every business has the right to expect that it alone will not be singled out for a special tax not applicable to other products on the merchants' shelves."
