### FILMS

The following adult films are available free of charge for use with Clubs, Civic Organizations, Churches, Scouts, P.T.A. groups and others. Films must be booked ahead of time and they are loaned for day or night showing.

### PROGRAM NO. 12 February 21 - March 18

**BRAZIL**—Tropical Lowland UWF, 20 minutes, sound, black and white. In this film, we study life in a large hot humid lowland dominated by forests; although this area is rich in tropical products, it is sparsely populated. We see native families in their river front jungle homes, engaging in primitive subsistence farming, and gathering forest products, such as wood and nuts. The only connection with the outside world is the Amazon River, down which the natives make trips to small trading posts where river steamers collect their jungle products for transport to the port of Manaus, from whence they are shipped to all parts of the world.

**INDIAN DANCES**, EBF, 10 minutes, sound, color. This film portrays four expressions of ancient Indian lore. Reveals the Indian as keen observer of nature and demonstrates his relationships with natural phenomena. An Indian dances patterns based on the characteristics of the prairie grouse courting, the eagle in flight, the buffalo and the deer.

**MAJOR RELIGIONS OF THE WORLD**, EBF, 20 minutes, sound, color. This film presents an objective survey of the origins, rituals and symbols of the major religions of the world today—namely, Hinduism, Buddhism, Judaism, Christianity and Mohammedanism.

**THIS CHARMING COUPLE**, McGraw-Hill, 19 minutes, sound, black and white. Focuses on a frequent cause of broken marriages—the false ideals of "romantic" love on which too many marriages are built. Follows the courtship of two young people who refuse to evaluate each other's qualities and shortcomings in a realistic, adult fashion. A series of dramatic episodes reveals the true nature of each one. In every instance when an opportunity for proper appraisal is presented, Winnie and Ken are unwilling, or unable, to alter their romanticized ideas of each other to agree with actual facts. Because they are in love with "love" and not with each other, their marriage is bound to fail.

**YOSEMITE**, EBF, 18 minutes, sound, color. Portrays much of the splendor of gigantic valleys and cliffs, shining waterfalls and the dark forests in Yosemite, one of America's famous national parks. Reviews geologic history in showing the steps of its development.

Mrs. John F. Keefe of North Miami is visiting her son-in-law and daughter, Mr. and Mrs. Dwight Beatty.
