

Canton High Campus Cuffnotes

By LINDA BRIGGS

The week of frenzied campaigning is over and congratulations are in order now. Last Wednesday Student Council elections came to a close for 1952 and the following people were elected:

Vice-President—Charles Greene. Secretary—Joyce Smathers. Treasurer—Marianna Moon. These officers, along with Dale Childers, incoming president who was elected last year, will begin their terms next September for 1952-1953. The campaign speeches, which were given Tuesday, were some of the best ever heard at Canton High and were accompanied by showers of candy and gun from campaign managers, and original stunts written by various C.H.S. students.

On Wednesday afternoon the student body was privileged to hear Dr. Olin Brinkley who led the services at the YMCA during Religious Emphasis Week. A large number of students attended the evening services and thoroughly enjoyed each one of them.

Friday was a big day for Canton High students, especially those in the Beta Club. The chapel program, "Lovers Through the Ages," which the club has been working on for so long, was given Friday morning. This idea was planned and carried out by Mildred Duckett with some assistance from Linda Briggs and Melissa Osborne, and it turned out better than the club expected. The program was almost entirely musical and depicted various lovers in history with appropriate songs for all. A great many college students who were home for spring holidays were in the audience and it sure was good to have them back.

Friday found the newly organized Key Club on their way to Marion to attend a District Key Club banquet. The boys seem to have been impressed by the activities of the various Key Clubs represented there, and hope to get started in a big way in the very near future.

Eight Canton High boys attended special lectures Friday at David Millard Junior High in Asheville. These lectures were on various types of engineering and were given by a representative from N. C. State College.

Friday night Canton's first "Twirl Twirl" was held and those attending really had a big time—especially the boys. Most of the girls paid all expenses of the evening and although they complained, most of them really enjoyed it. A fairly large crowd attended the

party and did everything from dancing to jumping ropes. Whether or not it was successful enough to have another next year, we don't know. We'll leave that to the Junior Class to decide.

The Dramatics Class is hard at work on another play and this one sounds like the biggest production they've ever attempted. "The Crown of Thorns," a religious drama in three acts, will be given for Easter on April 8 in the C.H.S. auditorium. The cast is as follows: Pontius Pilate, the Roman Governor—Earl Hardin.

Claudius Procula, his wife—Martha Poindexter.

Gavis, their young son—Charles Hall.

Morah, a Jewish maid — Pat Smathers.

Cornelius, a court advisor—Melvin Reed.

Classius, a Roman soldier—Wiley Carpenter.

Stephen, a disciple of Jesus—Charles Green.

Everyone is looking forward to our holiday tomorrow which we are being given because of the teachers meeting in Asheville. The Future Teachers Club State Convention is being held at this time and several Canton High students are planning to attend. Perhaps they will give us a full report next week.

TRUCK BUYERS CAUTION!

THIS YEAR marks a revolution in truck engine design. Ultra-modern short-stroke design has jolted the entire industry. BUT you can't get it in all trucks!

The most important truck power advancement of modern times is short-stroke design. The shorter stroke cuts internal friction. Piston ring life is prolonged up to 53%. Gas savings up to one gallon in seven!

LOOK UNDER THE HOOD!

Be alert—check engine specifications before you buy a new truck. It isn't a short-stroke engine unless it has a stroke as short as, or shorter than the bore.

ONLY FORD gives you a modern Short Stroke engine in every truck!

Ford pioneered Short Stroke truck engines over three years ago. Ford has four Short Stroke V-8's and the shortest stroke Six in the business! Why settle for an old-type long-stroke engine? For immediate benefits, for highest trade-in value later—go modern, go Short Stroke, go FORD!
