

### Film Showing Set For Friday At Library

Three films will be shown for adults tomorrow (Friday) at 10:30 a.m. in the Children's Room at the Haywood County Library.

The films include: "Brush Technique," a demonstration in the use of water colors by the famous water color artist, Elliot O'Hara; "Italy," a film of the Po River Valley; and "The Impressionable Years," a feature filmed in the New York Public Library.

The films will be available for use by clubs and other groups until April 22.

### John Bottoms Wins Bird House Contest

Representatives of the Canton Garden Club met with Canton Boy Scout Troop 1 Monday night at the Central Methodist Church and awarded prizes to the winners of the Bird House Building contest, sponsored by the club.

John W. Bottoms won first prize of \$5.00. Earl Franklin won second prize of \$2.50, and Eldon Hall was awarded third prize of \$1.00.

John Bottoms also won a \$2.50 prize for the best collection of bird houses.

Mrs. A. W. Bottoms told of the club's project for conservation of birds after which an informal discussion was held on the important features of bird houses.

Judges for the contest were Mrs. J. L. Reeves and Mrs. Willis Kirkpatrick.

### Warm Ice Cream

WALLA WALLA, Wash. (AP)—One of the things junior high school pupils learned in an exchange of letters with children of Kotzebue, Alaska, is that "Eskimo ice cream" has neither ice nor cream in it.

"Eskimo ice cream is made of caribou fat, seal oil, fish sometimes and berries or raisins and other fruits," wrote one of the children in the remote Eskimo village.

"Sometimes no fish and put in fruits like cooked apple. But it's not cold; anyway you could freeze it and eat it."

Strawberry Girl—Lenski. Miss Hickory—Bailey. The Twenty-one Balloons—du-

## Some Phases Of County Sanitation Held 'Deplorable'

Dr. S. W. Jabaut, county health officer, speaking before the Waynesville Kiwanis Club Tuesday night, asserted: "Haywood County is one of the finest in the state, but some phases of sanitation here are deplorable."

The health officer said: "I have worked constantly during the past seven months to improve county sanitation, but have continually run up against a stone wall." He added: "The buck is being passed all the time."

Commenting "we are not getting anywhere," the doctor said he has decided to seek the aid of the county's civic organizations in educating the public in matters of sanitation.

"People from all over the United States come to our mountains which are advertised far and wide and it's a crime that all this beauty has to be marred by filth."

To improve county sanitation, Dr. Jabaut urged:

1. Adequate facilities for garbage disposal and establishment of several sanitary fills within the county.
  2. A plumbing code. ("Good plumbing is the foundation of the home.")
  3. Fire inspection. ("We are wide open for a good fire.")
  4. Meat inspection at slaughterhouses.
  5. Passage and enforcement of an ordinance against keeping cattle, horses, or hogs within town limits."
  6. Establishment of a county dog pound. ("We need one to avoid killing valuable and much-loved dogs, I have asked continually for a pound, but have not got one.")
  7. Better cooperation from the public in observing the restrictions of anti-rabies quarantines.
- Commenting on garbage disposal, which he called the county's "No. 1 sanitation problem," Dr. Jabaut pointed out that a county-wide meeting was held here with several.

## Second 'Peace' Sermon To Be Heard Sunday

The Rev. Earl H. Brendall, pastor of the First Methodist Church will use as his subject, "My Number One Problem," for the second sermon in a series on World Peace Sunday night at 7:30 o'clock. Special music will be presented by a vocal trio composed of the Rev. and Mrs. J. W. Fowler, Jr. and James Fowler, III.

The nursery will be open for children from two to six years of age and cars will be available for those who need transportation to and from the church by calling the church office, GL 6-4122.

The special series of sermons will be held each Sunday night through May 15.

## Canton Nursery Destroyed By Fire

The Canton Day Nursery on Newfound St. was destroyed Saturday by fire which is thought to have started from defective wiring.

The building, belonging to Mr. and Mrs. Lawrence Pembroke, was partially covered by insurance.

Mr. Pembroke was working the 3 to 11 shift at Champion when the fire was discovered by his wife, who was alone in the living room with her one-year-old daughter.

All belongings, except living room furniture, were a total loss.

Fanned by a high, near-zero wind, the flames had gained considerable headway before Canton firemen were notified, but the blaze was confined to the nursing home and no damage to adjacent property resulted.

Canton firemen said they had never fought a blaze under more severe weather conditions.

## Paralyzed Painter

GRAND RAPIDS, Mich. (AP)—Warren Van Ess, 19, is completely paralyzed in both arms and legs from polio. But his paintings are gaining attention from critics and art patrons.

He holds his brush in his teeth. Since last summer he has completed four water-colors and plans to try oils.

All of his works, instructors say, exceed standards of painters with normal use of hands and are especially noteworthy because of their fine detail.

Kentucky has a town named Texas.

## Mrs. Ledbetter Dies In Washington

Mrs. Webb Ledbetter, 70, died March 23, at her home in Olympia, Washington. She was a native of the Spring Creek section and had lived in Olympia for several years.

Surviving are three sons, Hardy and Arthur Webb and Lester Ledbetter, all of the State of Washington; one daughter, Rita Ledbetter of Olympia; four sisters, Mrs. Althea Condry of Hot Springs, Mrs. Georgia Robinson of Marian, Mrs. Reta Gentry of Candler, and Mrs. Francis Hall of Canton; and four brothers, W. D. and H. E. Plemmons of Hot Springs, J. G. Plemmons of Lakeland, Fla., and Raymond Plemmons of Canton.

## Atomic Plumbing

OAK RIDGE, Tenn. (AP)—Atom has gone into the plumbing business.

A bad leak developed at the Kern Methodist Church when pipes were beneath a concrete floor.

The Atomic Energy Commission licensed the church to use active iodine at the suggestion of Oscar Bizzell, a chemist who is on the staff at the National Laboratory.

The iodine isotopes were fed into the pipes, and a counter located the interference. The job cost the church \$100.

## Fifty Years of Progress...

The bustling sounds of industrial and economic progress were already echoing throughout the Smoky Mountains when Rotary International and Dayton Rubber came into existence in 1905.

Since then, Rotary has grown into a world-wide organization. But size is not the sole measure of success. The value of services rendered is what makes an organization great. And, in this respect, Rotary International has become a compelling force in our way of life.

The folks at Dayton Rubber are proud of the company's fifty years of progress. We, too, have grown considerably since 1905. But more important than size is our record of quality products, dependable service and technical achievement.

We are happy for the opportunity in this, our Golden Jubilee Year, to salute our employees, customers, suppliers and the communities in which our plants are located.

Visit the Dayton Rubber booth at the Western North Carolina Manufacturers' Exhibition in the City Auditorium, Asheville, March 31, April 1 and 2.
