KIDNEYS
MUST REMOVE
EXCESS WASTE
When kidney function slows down, many
folks complain of nagging backache, loss of
appetite and energy, headaches and dizziness.
Don't suffer longer with these discomforts
if reduced kidney function is getting you
down—due to such common causes as stress
and strain, over-exertion or exposure to
cold. Minor bladder irritations due to cold,
dampness or wrong diet may cause getting
up nights or frequent passages.
Don't neglect your kidneys if these condi-
tions bother you. Try Doan's Pills—a mild
diuretic. Used successfully by millions for
over 50 years. While often otherwise caused,
it's amazing how many times Doan's gives
happy relief from these discomforts—helps
the 15 miles of kidney tubes and filters
flush out waste. Get Doan's Pills today!
