DON'T settle for a 1949 engine in your new 1955 truck!

The most important engine advancement in years is revolutionizing truck power! It's short-stroke design. Make sure you get it in your new truck...

LOOK UNDER THE HOOD!

Check the specifications! If the stroke is as short as, or shorter than the bore—it's a short-stroke engine. Reduced piston travel cuts friction. Piston rings last up to 53% longer. Gas savings up to one gallon in seven!

ONLY FORD gives you a modern Short Stroke engine, V-8 or Six, in every truck!

Ford's got four Short Stroke V-8's and a Short Stroke Six... with engineering refinements resulting from five billion miles of service! Why settle for an outdated long-stroke engine? A short-stroke engine gives you more for your money now—and protects your truck's ultimate trade-in value, too!
