## Champion Plans Meetings 1,000 Of Their Top Men At 3 Plants At Lake Logan

Series of annual conferences, 1,000 members of the Champion Fibre Co., will be starting during the month of June at an announcement by Robert B. Robertson, Jr., president.

Robert B. Robertson states that the program is to be divided into three parts under the direction of the company's General Industrial Department. Under the plan, alternating sessions will include approximately half of the company's supervisors participating in a newly created council, a series of sessions at Lake Logan.

The last ice age ice sheet melted from the Great Lakes area about 10,000 years ago.

## Health Department Office To Close Friday

Members of the staff of the Haywood County Health Department will attend a meeting of the Western North Carolina Health Association at Morganton Friday, according to Mrs. Rubye Bryson, public health nurse.

The department's office in the basement of the courthouse will be closed Friday, but the laboratory on the ground floor will remain open, she said.

an alert and well-informed management team." Mr. Robertson emphasizes, "Furthermore, in order to continue our development and growth, we must plan ahead. Our supervisors will play a vital role in this progress. The management conferences will not only help to keep supervisors well-informed, but draw upon them for much of our forward thinking."

The group discussions this year will evolve around two areas of industrial management: "The Selection and Development of Men," and "Communications". Reports and discussion topics at the depth meetings will be of a like nature.

The last ice age ice sheet melted from the Great Lakes area about 10,000 years ago.

NEWLY ELECTED OFFICERS of Local 277, United Rubber Workers of America, are (seated, L to R): Robert Hipps, president; John Messer, vice president; Elizabeth Mitchell, secretary, and Florence Drinnon, treasurer; (standing) Ralph

Trull, Dick Bryson, Bruce Ramsey, and W. W. Rowland, members of the executive board and trustees. Absent when this picture was taken were Jack Kelly, Jim Haynes, Doris Bishop, and Bill Hembree. (H. B. Norton Photo).

## Hipps New President Of URW Local

Robert Hipps was installed as the new president of Local 277, United Rubber Workers of America, at a recent meeting at the union's meeting hall. He replaces outgoing president, Lloyd Cogdill, who swore in the new officers.

Other officers, who will serve until 1957, are: John Messer, vice president; Elizabeth Mitchell, secretary; Florence Drinnon, treasurer; Jack Kelly, Ralph Trull, Dick Bryson, Doris Bishop, and Jim Haynes, executive board members; W. W. Rowland, Bill Hembree, and Bruce Ramsey, trustees.

Melva Rogers, who would have won a \$20 door prize was not present. The prize next month will be \$25.

The union's next meeting will be Saturday, July 2.

## Paint For Relaxation

JACKSONVILLE, Fla. (AP) — Detective Sgt. Claude Hendricks weighs 265 pounds and has hands like hams. But he's just as facile with a tiny paint brush and delicate figures as he is with a pistol. Hendricks makes money painting figurines and recommends it as a sure fire way to take your mind off your troubles.

"Your thoughts don't have time to wander when you're trying to apply color to a tiny set of lips on a 12-inch bit of plaster," he explains.

A fellow detective, who had dabbled at making figurines, introduced Hendricks to the art. Three months ago he opened a retail store in partnership with John B. Outz. Hendricks does his sideline painting in his spare time. Outz does the moulding.

The number of pupils in American public schools increased from 23,900,000 in June, 1949 to 25,100,000 in September of the same year.

## Deer Damage Trees

SALEM, Ore. (AP)—Deer browsing on small trees planted in the state's reforestation program on the big Tillamook burn area have become a major threat to plans for restoring the timber, the Oregon forestry department says.

Fire used to be the biggest threat to timber, Forester George Spaur said, but now insects in the grown trees, deer nibbling the young trees, and field mice eating the seeds, have become major worries. In some areas, damage from deer is estimated at up to 80 per

cent of the young trees.

Porcupines are another hazard. In the Lakeview area the Elks club offers prizes to boys and girls who kill the most porcupines. The animals eat bark from the young trees, causing heavy loss.

Cosmic rays create radioactive carbon dioxide in the air which is absorbed by all living things and makes possible the dating of the death of any once living material which died less than 45,000 years ago through measurements of the disintegration.

## Library Notes

Margaret Johnston  
County Librarian

## MEMORIAL BOOKS

The Memorial Books idea was started here in Haywood County by the Waynesville Book Club in 1945. Since then exactly 500 books have been added to the collection. They are books on many subjects and for all ages. All of these books are selected with special care for use in the library and also to be a lasting memorial for a loved one.

A book is a permanent memorial which may bring enjoyment to hundreds of people since it is used over and over again.

A bookplate is placed in each Memorial Book, and the library sends an appropriate card to the family to inform them of the establishment of the Memorial. You may phone the library and a card is sent immediately.

It is suggested that the gifts be in the form of money, this is to avoid unnecessary duplication of books in the library collection, and to also take advantage of discounts received by libraries. Selection is made by the librarian.

Memorial Gifts have also been made to the Building Fund in memory of the following:

Miss Elizabeth Glavish, Mrs. Charles E. Quinlan, Mr. C. A. Campbell, Mr. John Stokes Ray, Mr. Oliver Shelton, Dr. Thomas Stringfield, Mrs. James I. Green, Mrs. Sam L. Stringfield. Music Recordings have been given

## Ernest Ledford Now Serving In Germany

Ernest J. Ledford, son of Mr. and Mrs. Weaver Ledford of Fines Creek, is now serving with the Fifth Infantry Division in Germany.

A 1932 graduate of Fines Creek High School, Ledford was employed by the Giles Chemical Corp. in Waynesville before entering service. He took basic training at Camp Gordon, Ga.

The 97 per cent of North Carolina farms which now have electricity compares with 3 per cent in 1935.

## No Noise For Ted

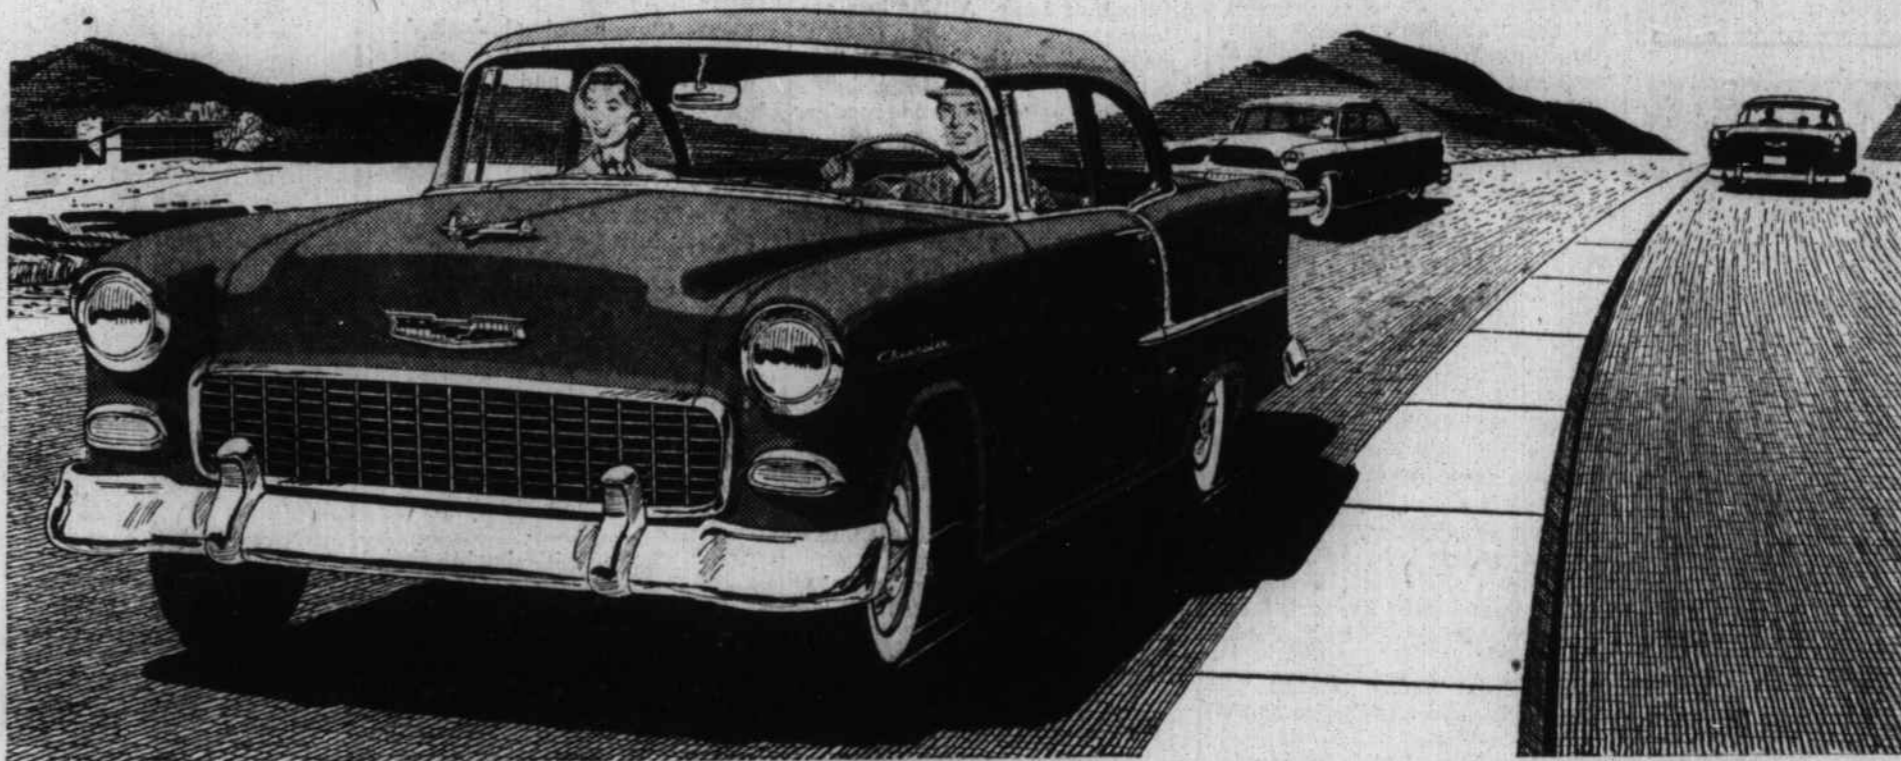

QUIET OUTBOARDS are "tops" for angling in the opinion of Ted Williams, whose skill with a fishing rod equals that of his fence-busting bat. The Boston Red Sox star is shown running the newly-introduced "truly quiet" Johnson 10-horsepower outboard he is using in his fishing trips at the end of the baseball season. The manufacturer has silenced both 10 and 25-horsepower outboards in current production models.

# Don't argue with this baby!

All Chevrolet's competitors and most of the high-priced cars tried it recently in official NASCAR\* trials—and took a licking!

Meet the champ! The new Chevrolet "Turbo-Fire V8"—the most modern V8 on the road today. Here's what happened—

Daytona Beach, NASCAR Acceleration Tests Over Measured Mile From Standing Start. Chevrolet captured the 4 top positions in its class! 8 of the first 11! And on a time basis Chevrolet beat every high-priced car, too—but one! But wait!—this is just the beginning!

Daytona Beach, NASCAR Straightaway Running. Open to cars delivered in Florida for \$2,500 or less. Chevrolet captured the first two places, 7 out of the first 11 places!

Daytona Beach, NASCAR 2-Way Straightaway Running Over Measured Mile. Open to cars from 250 to 299 cu. in. displacement, Chevrolet captured 3 of the first 5 places!

Columbia, S. C. NASCAR 100-Mile Race on half-mile track. Very tight turns. Chevrolet finished first!

Fayetteville, N. C. NASCAR Late Model Event. Chevrolet again finished first. Because of even tighter turns the driver chose to run the entire 150 laps in second gear! Yet no overheating or pit stops!

These facts you can't laugh off. Sales leader. Road leader. A crowning achievement of Chevrolet and General Motors. Try a Chevrolet... and live in a land of going-away where you win all the arguments! Soon, maybe?

\*National Association for Stock Car Auto Racing

Way, way ahead!

# Chevrolet

Sales leader for  
19 straight years!
