Soup's On

HAMDEN, Conn. (AP) — Lawrence Kelley was charged with driving through a red traffic light. His explanation in court was that he had a kettle of soup in his car and was afraid some of it would spill if he stopped. Judge John E. McNeerney said: "Next time let the soup spill. Pay the clerk \$9."

It takes 1,000 gallons of paint every four years for the U. S. Capitol dome.

It's the 4-Door Riviera with Variable Pitch Dynaflo® (and Men!—are Buick sales booming!)

Let's get right down to cases. The Buick pictured here is a brand-new development in body design that you'll surely see copied in the years to come. It's the Buick 4-Door Riviera—a hardtop with separate doors to the rear. That's what makes this beauty the envy of our competitors and the joy of our customers. Because here for the first time is that long-awaited combination of true hardtop styling and true sedan comfort and convenience... Because here you have the long, low, rakish look of a Convertible—with no center posts above the door line—with 4-door entry and exit—and with a bigger, sedan-sized rear compartment.

But this is just the latest sensation in the line of Buicks now breaking every sales record in Buick history. For there's also the spectacular action of Buick's Variable Pitch Dynaflo that has brought a new kind of car performance to the American scene. It uses the switch-pitch principle of the modern plane's propeller. It lets you change the angle of Dynaflo's whirling-in-oil blades—from one pitch for improved gas mileage—to another pitch for instantaneous getaway and acceleration response. And there's new V8 power of record might to spark this thrilling performance—and to match the spirited look and the great ride and the precise handling ease that are part and parcel of every new Buick today. Is it any wonder that Buick sales are soaring to all-time best-seller highs this year? Or that, with this tremendous sales volume, we're giving the biggest trade-in deals ever possible? Come see us today—this week at the latest. Take the wheel of a 4-Door Riviera—press that pedal—and let the thrills speak for themselves. *Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on ROADMASTER, optional at modest extra cost on other Series.

Engine Wear Reduced 40% with Trop-Artic Motor Oil

(THE DIFFERENCE IN WEIGHT IS A DIFFERENCE IN WEAR!)

In an engine test equal to 2500 miles of driving, piston rings lubricated with ordinary oil lost weight, showing extensive wear.

In an identical test piston rings lubricated with Phillips 66 Trop-Artic Oil showed scarcely any wear at all.

IT'S PERFORMANCE THAT COUNTS!

The difference in piston ring wear illustrated above proves an important point about the performance of motor oils: Most engine wear occurs when you first start your car or under stop-and-go driving conditions with an engine that hasn't warmed up. It takes a very special kind of oil to flow quickly and protect your motor when you start, and then to protect moving parts from sludge and varnish after the engine heats up. TROP-ARTIC All-Weather Motor Oil gives you this double protection. Compared to older types of oils, it can even double engine life. In a motor oil it's performance that counts. And TROP-ARTIC gives super performance! You'll get easier starting... save gasoline... and you can save 15% to 45% on oil consumption. Get TROP-ARTIC from your Phillips 66 Dealer.
