Midweek Prayer Service—fellowship, verse-by-verse, prayer.  
 Prayers warmly welcomed. Christ-centered.

**SHRINERS TAKE AUTO FOR A RIDE**

**FRANKS ARE A DIME A DOZEN** In Chicago these days as some 90,000 Shriners gather for their annual convention. Here, Don Hauser, at wheel of his toy car, shakes his fist as two fellow members of the Murat Patrol start hauling it from a fire hydrant. They are E. J. Maresh (right foreground) and H. E. Hanson. (International)

**Every Month Should Be Dairy Month**

Although the official June Dairy Month has come to a close, it doesn't mean that you can forget about your pledge to drink more milk and to use more milk and milk products in your meals.

The time for using milk stretches around the calendar—from January to January. Of course, in the summer, you want to keep cool, and what better way of doing it is there than to serve a refreshing milk sherbet or ice cream?

Vanilla ice cream is an old favorite, and it's certainly a versatile dessert. For a recipe that's hard to beat, try this one offered by extension nutritionist.

**VANILLA ICE CREAM**  
2 quarts milk  
4 eggs  
1/4 teaspoon salt  
1 pint rich cream  
1 tablespoon vanilla  
2 cups sugar

Heat one quart milk to scalding in top of double boiler. Add sugar and stir until dissolved. Beat eggs until light, add the scalded milk slowly and mix well. Return to top of double boiler and cook over boiling water for two or three minutes, stirring constantly. Add the remainder of the milk and the salt. Cool then add cream and vanilla. Pour into freezing can and freeze, using eight parts of ice to one of course salt.

To freeze the ice cream in the refrigerator, pour custard into freezing trays, and set unit for freezing. Stir well at least three times during the freezing period.

**G. D. Stovall, Jr.**  
Training At Benning

Cadet George D. Stovall, Jr., son of Mr. and Mrs. George D. Stovall, Sr., Asheville Road, Waynesville, is among the group of advanced Reserve Officers Training Corp students who have arrived at the 1955 General Military Science Summer Camp, located at Fort Benning, Ga., home of the United States Infantry.

A student at Davidson College, Cadet Stovall will participate in six weeks of intensive general military training which will permit him to put into practical application the theory that was taught in his

center and Mrs. Grover Clark, Juniors, Lura Mae Greene and Mrs. Marvin Green; Internediate, the pastor, the Rev. Harold Townsend and Mrs. Townsend; secretaries, Mrs. Johnny Greene and Mrs. Ernest Haney.

school. The entire six weeks course is designed to provide each of the potential military leaders with the maximum opportunity to participate in individual and small unit training and to develop traits of leadership and ability to function effectively in the role of an infantryman in small unit operations.

**FIGHT FOR RESERVE ACT PUSHED**

**ADM. ARTHUR RADFORD** (left), chairman of the Joint Chiefs of Staff, waits in Washington to plead with the Senate Armed Services Committee for favorable consideration of the Administration's compulsory military reserve bill. With him, going over a House resolution to strengthen the act, are Carter Burgess (center), Assistant Secretary of Defense for Manpower, and Sen. Richard Russell (D-Ga.), chairman of the committee, who seeks to exempt from training veterans with 18 months' active service. (International)

**Committee Of 14 To Aid Food-Drug Administrator**

WASHINGTON—A group of 14 distinguished citizens has agreed to help the Food and Drug Administration seek a better way to do its job, which is to guard the foods and medicines the American housewife gives her family.

The committee was set up by Mrs. Oveta Culp Hobby, secretary of health, education and welfare. Its purpose, according to FDA Commissioner George P. Larrick, is to "find some kind of yardstick to measure the adequacy of enforcement" of the food, drug and cosmetic act which regulates an industry upon which more than one fourth of the total family income is spent.

The law protects consumers against harmful medicines and foods, insanitation and filth, and it requires statements made on labels be truthful. It also provides for analyzing new drugs that come on the market. Larrick says more than half of the medicines used by doctors today were unheard of in 1938. It also requires labels to

tell what a food package contains and how much.

"Scientific advances, and other developments since the law's passage have added to the responsibilities of the FDA," Larrick told me. "It is for this reason the committee was selected to make recommendations as to the amount and kind of enforcement of the act and related statutes which will best serve the country."

FDA officials say that the number of new products used by American families is increasing steadily, but the administration's facilities have not kept pace because of small appropriations.

"Congress and the Budget Bureau have not been convinced of the need for increased vigilance by the FDA," a spokesman said. "We hope the committee will come up with material to show how much an increased staff and facilities are needed."

Chairman of the committee, which has already held one meeting, is G. Cullen Thomas, vice

**Fulton Statue Restored**

NEW YORK (AP)—An 83-year statue of Robert Fulton, the steamboat inventor, now has a home and a head. The zinc statue, more than 10 feet tall, had stood at various outdoor sites in New York City. It suffered deterioration from the weather. Finally it was placed in storage, with the head removed to avoid breakage.

But now it has been placed in a loggia of the Museum of the City of New York with the head attached.

**On The Record**

WAUKEGAN, Ill. (AP)—Tiny Tina probably is the youngest person with a police record.

Frank Kelly, a retired Navy chief brought his daughter, Katherine Tina, two months old, into the North Chicago police station and asked that she be fingerprinted and footprinted for her baby book.

While this was being done, Kelly suggested that she be charged with something, so the summons could be posted in her baby book. Police obliged and charged her with crying in the police station.

**Key To Recovery**

ST. LOUIS (AP)—When his daughter's convertible was stolen Everett Reed got a set of keys to the stolen car, just in case.

The next day, while driving home from work, Reed spotted the car parked in a city park. He drove it home and reported the recovery to police.
