# Fire Chiefs Of Four Haywood County Towns Give Timely Suggestion

### Observance Of Fire Prevention Week Is Started

The fire chiefs of the four fire departments in Haywood, have issued copies of a home fire safety check list, which is timely, and a part of a program of curbing fire

The four fire department heads said that since this check list is supposed to cover the kind of house most people live in. it is quite possible some of the hazards listed are not found in your home. For example, your home may not have a basement. Therefore, basement hazards will not be found, Or, you may live in an apartment and have no yard or garage hazards. and quite possible, you do not own a portable oil heater, the firemen

The lists are as follows: Yard and Garage Hazards

Have you removed all combustible rubbish, leaves and debris from your yard?

Have you removed all waste, debris, and litter from your Is an adult always present dur-

ing the entire time trash, leaves, etc., are being burned out of doors? do you trim the wick and clean it Jarrett Williamson home. Is trash and refuse burned in a regularly? suitable outdoor incinerator?

rubbish been removed from vacant property adjacent to yours? Does your garage have a con- portable oil heater is placed well away from curtains, drapes, furni-

crete, brick, or earthen floor? If you store paint, varnish, etc., fure, etc.? in garage, are the containers al-

ways kept tightly closed? If your garage is in the base, at night? ment, or is a part of the house, have cut-offs or barriers been provided to prevent leakage of gases, tricians to install or extend your smoke or odors into living quar-

### Housekeeping Hazards

Do you keep your basement, storerooms, and attic free from rubbish, oily rags, old papers, mattresses, broken furniture, etc?

If you use an oil mop, do you keep it in a metal container or other safe, well ventilated place where it will not catch fire by spontaneous ignition?

Do you destroy or safely dispose of oily polishing rags or waste after using?

Do you deposit ashes in covered hole-free metal containers, and dispose of them at frequent, regu-

Has your family been forbidden to use gasoline, benzine, or other similar flammable fluids for cleaning clothing or floors in your

Heating and Cooking Hazards

Is your inside basement door at the head of the stairs tightly fitted and kept closed at night?

Are wood floors under stoves and heaters protected by metal, brickwork, concrete, or ventilated air space?

If your house is oil heated, is the motor oiled, and burner cleaned, adjusted and inspected by a reliable service man before the heating

season? Are all stovepipes and chimneys cleaned, repaired and your furnace inspected each fall?

Have you eliminated all stovepipes and gas vent piping which

pass through attic, closets, storerooms, or frame partitions? Are walls, ceilings and partitions

heating pipes protected by non- alarm? combustible insulation or is adequate separation provided? Are members of your family forbidden to start fires in stoves, fire- instruct them earefully on what

places, etc. with ke osene or other flammable liquids? Are all fireplaces equipped with

metal fire screens? If you have gas connections made of rubber tubing for portable gas

heaters or appliances, are shut-off valves installed in the metal gas

pipe line? Oil Heater Hazards Are your oil heaters and oil stoves of a type which has been

local United Fund Campaign, said a lot of hard work had already gone into the program to assure its success.

"The 25 agencies who are parances - including irons, waffle ticipating are dependent upon the generosity of the public. The 'oneirons, mixers, heaters, lamps, fans, time' contribution plan for the 25 racios, television sets, and other agencies makes the work here simpler, easier, and also means that more of every dollar goes into the work for which it is contributed, because the United Fund plan raises the money much cheaper per dollar than it is possible to do under the multiple drive plan." he
