News Of WTHS

Barbara Griffith and Dorothy Grasty

Well, it looks like Junior High is in the spotlight this week. They have accomplished a lot lately. To begin with the annual declamation speaking contest was held Tuesday, January 31. There certainly were a lot of good speeches and all of the boys did a good job.

First place went to Bob Evans, second place to Tom Campbell, and honorable mention to Jimmy Fancis. Congratulations boys.

Other boys contributing to the successful program were: Tommy Walker, Dickie McCarroll, Phillip Chase, Jack Messer and William Rowland.

Junior High students also selected their candidates for May Queen attendants. From the seventh grade we have: Brenda Keener, Betty Rowland, Pam Rogers, and Karen Saunders.

From the eighth grade we have: Linda Gale Hollifield, Mary Lou Swanger, Sharon Shope, and Marty Watkins.

Election will be held Monday. Good luck everyone.

If you happened to be around WTHS this week, you would think that all of the seniors were fixing to start a bookmobile or a library. Could it be because those beloved research themes are in process? Yes, I am afraid so. Every senior

is busy looking, studying, and reading in order to make an "A" on the themes which are due in two weeks. That seems to be a long enough time, but believe you me, it will fly.

We would like to welcome to our school Harry Harris, a sophomore from Cullowhee. We hope that he will like WTHS and feel at home here.

Looks like exams are all over at college because some familiar faces were seen around WTHS this week. Many of last year's seniors were home for holidays after exams.

It seems that the group that went to Greenville for the All-State Orchestra had a mighty good time. They left Thursday morning and returned Monday morning. While on the Eastern Carolina College campus a dance, a banquet, and some went to a basketball game. Along with this went a lot of practice but everyone had a wonderful time.

Chimborazo, the volcanic mountain in the Andes of Ecuador, is only 100 miles south of the equator yet it is permanently snow-covered because of its great height (20,702 feet) above sea level.

## EDEN IN WASHINGTON FOR TALKS WITH PRESIDENT

WITH A COLOR GUARD IN BACKGROUND, Secretary of State John Foster Dulles extends a hand of welcome as Sir Anthony Eden, British Prime Minister, arrives in Washington for talks with President Eisenhower. Eden told newsmen he was "quite sure we will make a serious contribution toward peace." Middle East and Asian problems were reportedly among top subjects to be discussed. (International)
