SALE OF VALUABLE FARM PROPERTY

Under and by virtue of the authority conferred upon us in a Deed of Trust executed by Oliver A. Westbrook and wife, Marianna Westbrook, on the 20th day of October, 1925, and recorded in Book 276, page 94, we will on Saturday, the 25th day of May, 1935, 12 o'clock noon at the Courthouse door in Duplin County, Kenansville, N. C., sell at public auction for cash to the highest bidder the following land, to-wit:

In Albertson Township, Duplin Co., N. C., adjoining the lands of J. E. O'Daniel, F. M. Kethley, Geo. F. Kornegay, Tom Revel, J. M. Smith, Richard Deaver, and the lands of the C. J. Grady heirs, bounded as follows: Beginning at a stake; a corner of J. E. O'Daniel's land, on White Hall-Sarrecta Rd., and runs N. 84 W. 200 poles to a hickory, thence the same line continued 128 poles to two maples, a corner of the F. M. Kethley land on the bank of North East River, thence with his line, across said river, S. 25 W. 92 poles to a stake, thence the same line continued 62 poles to a stake, cor-

Subscribers, Please Take Notice

The TIMES has sold quite a few subscriptions for short periods. Quite a number of you subscribers have paid for your paper in small amounts. As we announced soon after moving to Kenansville, it is against the Postal Laws and regulations to send newspapers through the mails regularly to non-subscribers. When your subscription date runs out you automatically become a non-subscriber, therefore we will be forced to discontinue your subscription unless you renew promptly. Please read the label on your paper and you will find after your name the date of the expiration of your subscription. Mail us your check, money order or send stamps immediately so that you will not miss a single issue.

The large number of subscribers we have make it virtually impossible to call on every one for a renewal. We do not believe it necessary to send you a special notice through the mails. We know you do not want to miss a single issue, so PLEASE WATCH THE LABEL AND SEND IN YOUR RENEWAL PROMPTLY. Rates: 1 year \$1.50, 6 months \$1.00, 3 months 75c, 4 months 50c.

You and the publisher together are giving Duplin County a good weekly NEWSPAPER. In this business of making a NEWSPAPER you are just as vital a part as the press. You make the news, we print it and you read it. Isn't that a fine process? If you will do your part towards helping us finance the undertaking we will do our part in continuing to publish Duplin County's "County NEWSPAPER."—The Publisher.

Ask about the Low Cost of HIGH-POTASH FERTILIZER

Cotton never Rusts

WHEN YOU FEED WITH NV POTASH

WHEN you use sufficient NV POTASH to prevent RUST you usually greatly increase your yields. Yet the cost of the extra potash amounts to only a few extra pounds of seed cotton per acre. Here is what Mr. David T. Pitts, of Clinton, S. C., says: "This year I will use 8-4-6 (PNK) fertilizer since the extra potash in this will cost me only 87 cents more per ton over 8-4-4, or about 17 cents per acre. Then, I will use potash with my nitrogen at top-dressing time. Its extra cost is a small amount to pay for rust insurance and yield assurance."

If you have been using a fertilizer containing only 3 or 4% potash, ask your fertilizer man about the small extra cost of a similar mixture containing 8 to 10% potash. Figure out what it will cost you per acre to use the higher-potash fertilizer. Find out how much extra plant food you are getting at such extremely low cost. This will probably represent the best investment you have ever made.

Select and use the fertilizer that is well-balanced with 8 to 10% NV POTASH. Where RUST was very severe, it will also pay you to top-dress when you chop out, with 200 pounds of NV High-grade 20% Kainit, or 100 pounds of NV 50% Muriate of Potash per acre. Remember, NV POTASH not only prevents RUST; it also helps control Wilt and produce vigorous, healthy plants, with less shedding, larger bolls that are easier to pick, and better yields of uniform, high-quality lint. NV POTASH PAYS!

H. H. FITZPATRICK, of Madison, Ga., who operates 25 plows, says: "When I used 9-3-3 (PNK) fertilizer and top-dressed with straight nitrogen I made about one-half bale per acre. By using 8-4-6 and a Potash-Nitrogen top-dresser I have increased my yield to a bale per acre."

LELAND KITCHEN, of Scotland Neck, N. C., (above) used his regular cotton fertilizer and then applied extra potash to the whole field except the three center rows which show RUST. NV POTASH PAYS!

JIM USURY, of Thomson, Ga., (right) used 200 pounds of 8-4-6 (PNK) fertilizer per acre at planting and top-dressed with 100 pounds of nitrogen material. The green cotton at right was also top-dressed with 200 pounds of NV High-grade 20% Kainit.

When you buy straight potash or potash in mixed fertilizer, it pays to make sure you get genuine NV POTASH—the same potash that has helped Southern farmers to produce better crops for 50 years.
