

# Towns In Duplin May Now Enjoy Comforts Of Water Works And Sewage Disposal

### Federal Government Offers Aid To Any Community Of 600 POPULATION 45 Per Cent Grant Of Total Cost Will Be Made By Gov't.

Duplin County's towns that do not have water works and sewage disposal now have the opportunity to obtain such through the aid of the Federal Government.

Mr. Rosch, who is with the Federal Health Department, was in Kenansville this week making a survey to ascertain if Kenansville residents are interested in the proposition.

Under the act up towns of 600 population can install water works and sewage disposal at an estimated capital cost of \$38,037. Of this amount 45 per cent or approximately \$17,167 will be an outright grant from the Federal Government. The balance will be taken care of through a net bond issue, twenty five years, 4 percent serial bonds, \$20,870.

The annual capital cost after deducting the 45 per cent grant will be \$13,940, with monthly capital charges to the community of \$112,000. It is estimated that the monthly operating expenses will be \$93.00, including the monthly capital cost, monthly operating expenses total \$195.00. The total monthly revenue anticipated will be \$195.00 leaving a net surplus of \$0.00.

Under this act up the towns of Kenansville, Magnolia, Rose Hill, Beaverville and Pink Hill can enjoy modern water works and sewage disposal at very little cost. In fact, it is thought that if fire prevention, which is not included in the above estimate, is put in also the savings to the communities in fire insurance rates over a period of 25 years will pay for the plants.

Kenansville enjoys a water works and it is estimated that the sewage disposal could be installed here for about half the above cost. Faison has recently completed its water works and sewage projects and according to reports from that town building and repairing has increased considerably. Installation of modern bathrooms and other facilities has resulted in putting to work many people.

### Johnson To Postoffice To Solicitors Post

In the off year of the off year election Duplin County politics has been rather warm. Only a short time ago the election of a new county superintendent of education kept the political observers and participants busy to know what was going to happen.

Last week information leaked out that Congressman Graham Barden had recommended E. J. (Bogue) Johnson for the job of postmaster at Wallace. "Bogue" is solicitor for the general county court, having been elected at the last election. Now the question is, who will succeed "Bogue"? There is Wm. E. Powell, who ran second in the race last time, Frank Blackmore of Warsaw who was also in the fight, P. J. Caudell of Wallace, a promising young attorney. It is reported that these three are actively after the job and when the names of N. B. Hisey of Kenansville and George R. Ward of Wallace are mentioned it is believed that neither of these two men would scoff at the job. The problem is becoming more complicated every day, according to those who are supposed to be on the inside. The only trouble is, though, only one can have the job and after it is all over the people in the county probably will forget the squabble until election time comes around again.
