The TIMES moves into its new quarters after ten months of operation under the present management and being printed in Weldon, the DUPLIN TIMES comes home to stay. The printing plant formerly located in Weldon has been moved to Kenansville and installed in the building formerly occupied by C. E. Quinn. The task of installation and arrangement has not quite been finished but enough was put to work to enable us to publish a paper this week.

Beginning next week the TIMES will issue a little earlier than heretofore. In addition to publishing the TIMES our shop is equipped to take care of any and all kinds of job printing, from envelopes, to broad sides, ruled work. We invite you to learn our prices, they may be cheaper than those from companies out of the county.

We wish to extend an invitation everyone who wishes to visit our plant any time after November 15th. Come and see for yourself what it takes to get out a newspaper. It will be interesting if you have never seen it done.

The TIMES force is composed of J. Robert Grady, editor and publisher; (Bob) Maxwell, contributing editor; R. A. Grady, circulation manager; Miss Louise Robinson of Wallace, news editor; James Bendall of Emporia, Va., shop foreman; Harry Lee Price of Weldon, pressman and Eddie Hughes of New York City, composing man.

### WARSAW VS. MT. OLIVE

Warsaw High School football team meets Mt. Olive High on the Warsaw grid field. The game is a feature part of the great Armistice program, Warsaw Monday.

The boys from Duplin and Mt. Olive boys are keen rivals of long standing, and the game promises to be one of the season's best in this section. The boys of both schools will be out to win. The largest crowd of the season is expected to be on hand to urge the team of their choice to victory.

Warsaw may be regarded as a slight favorite as a result of the season's record. But comparative scores and past records mean nothing when these teams meet. Be on hand Monday afternoon if you wish to see a good football game.

### Hon. Paul D. Grady Speaks To Juniors

Rich Square, Nov. 3.—The Rich Square Council of the Junior Order of United American Mechanics, together with a large delegation from the Lasker Council gathered at the cafeteria of the Rich Square School for an oyster supper on Monday night, October 28th. The supper, which was served by a unit of the P. T. A. was in itself a sufficient reward for attendance.

Following the supper the Hon. Paul D. Grady, of Kenly, State Senator and candidate for Lieutenant Governor, spoke upon the importance of the expression of the beliefs and ideas of the "average man" in the proper conduct of Government. Senator Grady emphasized the fact that those special privileges are continually contacting and advising our public officials, while the farmer, merchant or other business or professional men from the small towns neglect to inform their representatives in Government as to their wishes. He urged a closer relationship between the people and their representatives to the end that the rights and privileges of all people be more clearly recognized in the formation of Government policies. Senator Grady won many friends among his audience by his frank declarations that those elected to office should at all times be guided by the beliefs of his constituents.

A regular meeting of the Council in the local Council hall ended a most enjoyable evening.

### FARM SECTION FEATURES LATEST AAA DEVELOPMENTS

Featuring latest developments in the AAA, as they affect farm commodities produced locally, the November issue of our STATE FARMER SECTION, appears with this issue of our newspaper.

Much has transpired within AAA circles since the last issue of our STATE FARMER SECTION. Steps have been taken to increase potato prices prior to the time the Warren potato bill becomes operative. The corn-hog referendum has given the administration a resounding vote of confidence, and a new contract is in course of preparation for 1936, based on fair profits to the producer and reasonable prices to the consumer.

A committee within the AAA is preparing alternative measures designed to substitute for any adverse ruling by the Supreme Court on processing taxes or on the constitutionality of the Agricultural Adjustment Act itself.

All of these happenings are interpreted by expert special writers, in terms of local application.

In addition, there is a wealth of news and feature articles dealing with every commodity produced in this area, and with national activities in the field of agriculture, progress which have a local bearing. Among these are the National Future Farmer Congress; the National 4-H Club Congress, the American Royal and International Livestock Expositions; the National Dairy Show and other events.

### Put Out Fruit Trees Now; See County Ag't

During the summer and fall of the year everyone likes to go out to his fruit trees and gather a few peaches or apples for eating, canning or selling.

Beginning now, and for the next six weeks, will be the proper time for putting out fruit trees. Your County Agent or Assistant County Agent, by buying with a cooperative order, can get fruit trees for you at a nominal cost of from 10 to 20 cents each, depending on the size tree you desire to set.

In purchasing fruit trees, especially peach, it is better to buy several different varieties, with the idea of having some ripening during early summer, and others to ripen on to the first of September, having fruit all the season.

Fruit trees are no different from any other crop, in that if you are to have good fruit, you have to give the trees some attention in the way of pruning, spraying and treatment for borers and other insects. Of course it isn't practical for a farmer to be as particular with his home orchard as a commercial grower would be with his, but even home orchards should have some attention, and unless you are going to buy, with the above suggestions in view, it would be better to leave them off and use the space for some other crop.

Your County Agent or Assistant County Agent can advise you about pruning, spraying and treatment for the different insects.

With clubs in all 15 of the high schools, Johnston County will have approximately 2,000 members enrolled for 4-H club work this year.
