Teachey Men Injured in Wreck

Wilmington, Sept. 9.—Seven persons were injured early this morning when the log truck and station-wagon in which they were riding collided on the Castle Hayne road, State Highway Patrolman M. S. Parvin reported.

The injured were taken to the shipyard infirmary, where six were treated for lacerations, abrasions and bruises, and released. One was confined with a broken ankle.

Those injured were Buck Justice of Wilmington, driver of the truck, who received minor cuts on his hands; Dallas Jones of Teachey driver of the station-wagon, who received minor cuts on his forehead; and the following passengers of the station-wagon, Horace Wells of Burgaw, broken ankle; M. G. Moore, of Rose Hill, lacerations, bruises and abrasions; J. A. Henderson, laceration of the upper lip; P. W. Teachey, lacerations and bruises; and James Moore, abrasions, lacerations and bruises. The latter three men are residents of Teachey, the patrolman stated. According to the patrolman, the log truck, owned by R. L. Baston of Wilmington and operated by Justice, was traveling north on the Castle Hayne road in a heavy fog and had attempted to pass a vehicle when it crashed head-on into the station-wagon, turning the truck over in the highway and reversing the direction of the station-wagon.

Justice was arrested for speeding and for reckless operation.

School Children Asked To Pick Cotton

County Agent "Buck" Jones stated this week that many farmers are having difficulty in getting their cotton picked. He is advising them to call upon their school principals and ask for help from school children. Mr. Jones estimates that the children of this county could pick every boll of cotton after school hours and on Saturdays in just a few weeks.

United War Fund Committee Meets

The United War Fund Committee met in the court house here Wednesday night and discussed plans for the drive next month.

Instead of putting on a number of drives this year, all demands except the Red Cross, are being united into one drive. This will replace the USO and others.

Dallas Herring of Rose Hill, chairman of the drive for Duplin, presided and explained about the program. A representative from the State office in Winston-Salem was present and made a talk, explaining where this money went and what it was used for.

It was decided to include in the drive the \$500 quota set for our county for Boy Scout work, making a total of \$8,000 that must be raised next month.

Boy Scouts To Meet Monday

The Duplin District of Boy Scouts of America will meet in the home of J. E. Jerritt here Monday night, Sept. 13, at 8 P.M.

Mr. Jerritt says that the present time the work of Scouting is even more important than heretofore because of the widespread alarm over juvenile delinquency. In the war ridden world the young folks too often are neglected and dire consequences some times result.

Sorry Folks, Late Again

It looks as though the Times is having quite a struggle in getting back on schedule.

Reasons for being late this week are due to an extra heavy run of advertising, not anticipated. We were short on newspaper and railroad cars short on help. The heavy run in advertising, caused by efforts of our merchants to promote the Third War Loan drive forced us to carry additional pages. Newsprint is enroute to us and

Governor Asks Farmers to Sell Tobacco Slowly

Raleigh, Sept. 8.—Governor Broughton said today that "the farm labor problem of the state is in its most critical stage," and urged farmers to retard movement of tobacco to markets in order to concentrate on harvesting other vital crops.

"Every available individual on the farms of the state should give full time to picking cotton, to housing or stacking hay, harvesting peanuts and other food and feed crops, which will require much more labor than is now in sight," the governor said.

The marketing of tobacco in any great quantities can well wait until these important crops are saved," he said.

"Tobacco farmers likewise may benefit by giving attention to other crops at this time. Well informed authorities express the opinion that prices may improve a little later, and if these predictions are sound the farmers will suffer no loss by diverting all labor to harvesting other crops.

Referring to refusal of OPA to make an adjustment in the ceiling price of flue-cured tobacco, the governor stated that "together with the governors, senators and congressmen from North and South Carolina and Virginia, I shall continue to insist that the crop in these areas shall bring the average of 41 cents that is permitted under the ceiling."

Kenansville Ladies, ATTENTION

should have been here in plenty of time to get the paper out Friday but the train just didn't bring it in so we had to wait or not get the War Loan Drive messages to our readers.

COUNTY ORGANIZED Duplin Expected To Sell More Than Million Dollars Worth

One Man Sold Over \$100,000 Tuesday Night; Communities are well Organized And Drive Is Under Way

\$524,000 Is Quota

J. C. Thompson, chairman of the Duplin County War Finance committee, and head of the Third War Loan drive in Duplin County states that the drive is well under way and there is little doubt but that Duplin will well go over its quota. He said that one man sold over \$100,000, near a fifth of the quota on Tuesday night before the drive started. Credit is allowed in the drive for bonds sold a few days before and after the actual campaign opens and closes.

John Diefell of Wallace, chairman of the retail merchants division of the drive predicts that Duplin will sell over a million dollars.

Total sales asked by the government is \$15,000,000,000, largest financing ever undertaken at one time by our government or any government in the world.

Italy has fallen. The first of our enemies to really feel the power of American soldier's might when they are properly backed up at home. The success of this drive will add considerably to the breakdown of morale of other enemy countries and will hasten the end of the war.

Every person in Duplin County is expected to buy at least one bond and more if possible. Your attention is called to the table below.

The Third War Loan is your loan. The securities on sale fit your purse. Check the one which is applicable to you and buy it to the point of personal sacrifice. Always keep in mind your sacrifice is only temporary because you do not give your money away when you "buy" War Bonds; you lend your money at interest. Your money is not even frozen. In the event of an emergency—and the record shows that Americans are not redeeming their Bonds except in the event of true emergencies—your Bonds are redeemable.

The United States Government has never in its history repudiated a Government Bond. As further evidence of the strength of this country to guarantee redemption of your money, United States potential wealth amounts to \$89,000 per capita. Even with the heavy current war expenses, our national debt is only \$1100 per capita.

Only a country like ours could make such a deal with its citizens: repay you with interest for a loan of your money to protect you and your family against enemies which would murder, rob, or enslave you.

The number one "buy" for you is familiar Series E War Bond. Twenty-seven million American workers are buying Series E Bonds at the rate of \$420,000,000 a month. Your Third War Loan duty is to buy at least one extra \$100 Series E Bond above your regular buying. Buy more if you can.

Keep these facts in mind about the Series E Bonds: They come in \$25, \$50, \$100, \$500 and \$1,000 denominations. They sell for 75 per cent of their maturity value. They pay you \$4 for every \$3 invested if held until maturity, which is 10 years from issuing date. You may redeem them at any time 60 days after issue without notice at rated redemption value. Every Bond carries this redemption table.
