**What America Means**

Freedom of Worship is the Key to What We're Fighting For - - -

WHERE fascism strikes, the first effort that is made is to repress the right of people — especially minorities — to worship as they please. Further acts of despotism are sequels. But that shall not happen here — because our men are now dying on the battlefields, and our mothers are giving up beloved sons, so that each man's Bible may be his book of worship under a free flag — forever — in our own fair land, and in nations around the world.
