NEW FOOD PRICE ADJUSTMENTS

As a further move to stamp out the black market in gasoline, OPA has ruled that any local board or special hearing officer, after a proper hearing and a finding that the tire or gasoline regulations have been violated, may not only revoke a gasoline ration, but also may prohibit the use of gasoline in the violator's possession which was obtained as part of the ration.

CIVILIAN MEAT SUPPLY

About two thirds (67 percent) of the United States supplies of meat available for all needs in 1944 has been allocated to U. S. civilians, according to the war food administration. This allocation will allow about the same per capita civilian meat consumption in 1944 as in 1943. On a dressed weight basis, it is equivalent to approximately 132 pounds per capita for the year compared with the pre-war 1935-39 average of about 126 pounds.

PORK AND BEANS RELEASED

About 440,000 cases (approximately, 2 million pounds) of canned pork and beans will be released to civilians consumers with in the next few weeks.

PRICE RISE IN '43 WAS SMALL

At the end of 1943, the general level of prices in wholesale markets was two percent higher than at the close of 1942, and the prices of staples that families buy in retail markets for everyday living were up by about three and one half percent. This price rise was smaller than in any year since 1940, according to Frances Perkins Secretary of labor.

OPPORTUNITY FOR VETERANS

Returning war veterans may enter virtually any of the 30, 207 apprentice training program in the United States. Age restrictions and other limitations have been especially lifted for veterans in many apprenticeship standards so they may obtain training for skilled work according to the war Manpower Commission.

MORE TEA FOR CIVILIANS

About 76 million pounds of tea will be available to civilians consumers in 1944 - wartime limitations on shipping space permitting. This is about 16 million pounds more than civilians got in 1943.

DRY DESEBT

In the Arizona Desert, Camp Pilot is the spot; We're battling a terrific heat wave In the land God forgot. Just sitting here thinking Of what we left behind; We hate to put on paper Whats' running through our minds.

We wash our meskita daily And peel a million spuds, And pay out many dollars; To clean our dirty duds, Out in the desert with a rifle, Down in a ditch with a pick, We're doing the work of an ox And too darn tired to kick.

Down with the snakes and lizards, Down where men get blue, Down in the very bottom, A thousands miles from you, At night the heat waves keep coming, It's more than a man can stand. No we're not convicts or

criminals, But defenders of a mighty land.

We are soldiers of the Army Ground Forces, Earning our meagre pay; Guarding people with millions For a buck and a half a day. Living only for tomorrow, Lonely for our gals, Hoping that when we return there're not married to our pals.

What obstacles will confront us Is very hard to tell, Let's hope it's nice in heaven, For we've served our time in hell.

Author; Sgt. W. E. Brock, U. S. Army, Calif.

F S A OUTSTANDING DURING 1943

Despite the fact that its funds for loans to small farmers were cut considerably as compared to 1942, the Farm Security Administration made a good record during 1943 in Duplin County.

James Sanders, Rt. 2, Warsaw, Farm Ownership borrower of the F.S.A. has repaid his loan in full and the Government has cancelled its Deed of Trust against his farm. His farm was paid for within two years after he moved to it, and he becomes the first borrower to pay his Farm Ownership loan in full in Duplin County. According to W. C. Blackmore, F.S.A. Supervisor, Sanders says that the reasons for his success are: He and his family have worked hard; they have not depended on tobacco and cotton alone but have produced other commodities for home use and sale including hogs, cattle, poultry and eggs, milk and butter, cane and some truck crops; when he went to town to buy something he tried to carry something of equal value to sell so that he could bring back as much money as he carried away; and that he planned his business a year in advance and did his very best to carry out his plans as closely as possible.

During 1943 the Government approved Farm Ownership loans for nine additional Duplin County tenants bringing the total in this county to fifty. Blackmore stated that \$7,822.35 was due as payment on these loans during 1943 and that \$15,408.49 was actually paid in 1943 not counting payments received from the sale of timber.

The F.S.A. loaned \$85,815.00 to small farmers of this county to operate their farms in 1943. \$93,000 was collected on operations

nery between Mar. 11, 1941 and Nov. 1, 1943, according to the President's 13th report to Congress on Lend-Lease operations. Allied need for farm machinery was increased because of military demands. American Flying Fortresses now use airfields which four years ago were among Britain's best farms, thus necessitating reclamation of marshes and rough hill land for farm acreages. When Australia was threatened by Japanese invasion early in 1942, thousands of Australian farm tractors were conscripted for construction of military roads and airfields. More-over, British and Australian farm machinery manufacturing facilities early in the war had been converted to ordnance production.

ES - become valid for processed foods, and three red stamps - AS, BS, and CS - become good for meats-fats. All these stamps are in War Ration Book Four. Each stamp, regardless of the number printed upon it, will have a ration value of 10 points.

When making a purchase, the housewife will give the retailer stamps valued at 10 points each. If the stamps do not total to the exact amount of her purchases she will receive red tokens in change for the red meat stamps and blue tokens in change for the blue processed food stamps.

For example, if a consumer purchases processed foods which require 2 blue stamps (20 points) and receive 3 blue tokens in change. Tokens will have a ration value of one point each, and they will have no expiration date. They can be used at any time for making purchases. For example, if a purchase of meat requires 12 red tokens the consumer may give the retailer one red stamp valued at 10 points and two red tokens.

Consumers will not receive tokens before February 27 when retailers start using them as "point change" for purchases of rationed foods.
