PRELIMINARY VICTORIES OPEN WAY FOR CO-ORDINATED OFFENSIVE **AGAINST NAZIS IN 1944**

BY HUGO S. SIMS

The course of the war has been favorable to the United Nations for more than a year but the victories gained have been important only as they prepared the way for decisive blows against our ene-

More than six months ago both Germany and Japan assumed the defensive, relying upon their abilty to wear down the endurance of their foes. In Russia this has been particula ly noticeable and it has been pronounced in the Pacific .

Nazis Fight Defensive Battle The fighting in Russia, since the summer of 1943, has revealed steady retirement of Nazi forces without disaster. The "entrapment" of hund eds of thousands of Germans so glibly predicted by news dispatches and radio commentators. has not occurred and there is no immediate future.

The German high command has Speaker Sam Rayburn says something when he urges the women of the nation no to be ful retreat and seeking to inflict "sob sisters after the war saying maximum losses upon the Red that the poor people of Germany army. When a break-through was and Japan had nothing to do with threatened the Teutons held and this." zis have managed to save most of their fighting men.

Red Army Engages Bulk of Foe The withdrawal in Russia was not voluntary. It was compulsory in view of the stragetic situation confronting the Germans who were required to prepare themselves for the coming offensive in western

While not successful, as yet, in materially shortening the front line the retreat has brought the fighting German army much closer to thei supplies, thus relieving transportation problems. The same statement applies to the front in Italy, when compared to the battle line in North Africa.

The vast struggle in Russia continues to dominate the activities of the combatants. This will conzens, with individuals as distinct tinue until large-scale Anglo-American operations begin in the west Then it will be a matter of what happens, with some experts prof-esssing to believe that the Germans will prefer to wage desperat the cost of inviting disaster in the west.

Some Progress Seen In Italy The new Allied landing in Italy, reported about 30 miles below outflanked the German forces further south. It caught the Ge mans by surprise, the Nazis evidently believing that no such enterprise would be undertaken in view of plans and preparations for cross channel invasion. Initial Nazi opposition was in-

ced rapdly. If the early gains can Information.

be consolidated the Nettuno landing may have important results, including the withdrawal of the Germans from positions south and, unless the enemy stages a successful stand, the capture of Rome may be earlier than expected.

Orthodox Strategy Expected
Meanwhile, everything that hap-

pens in Europe is preparatory to the offensive for which Allied ar-mies are being readied in England. American troops are being sent to the island bases in great numbers and, while no one knows the date of the attack, the first great bid for victory over the Germans is certain to come within the next

few months.

It is idle to speculate upon the landings in western Europe but it is reasonably certain that the necessity for aerial supremacy will keep it within the range of fighter planes operating from English bases.

The Allied high command has exhibited considerable concern about the safety of soldiers and there is nothing in their past record to suggest that they will undertake anything except orthodox warfare, depending upon overwhelming force to acquire success at a minimum less of life.

Slow Progress In The Pacific In the Pacific the process of consolidating bases proceeds, with bombing attacks designed to soften up the Japanese in the Marshall islands, where a new advance is likely to occur at any time,

The Japanese continue to use Rabaul and exhibit some intention of fighting it out for aerial control over vital points. Despite heavy aerial losses the enemy manages to reinforce depleted air bombing attacks against American positions.

Nothing of much importance has kitchen furniture. happened in Burma and China. day, although there is reason to owner, believe that the enemy will at- Agent. tempt to reserve a "fleet in being" 2-12-2t. pd. rather than take preliminary risks.

It is useless to speculate as to just what is the strength of the Japanese in the air and onthe sea. will receive our careful attention, pense of warfare reaches fantas- ate war against the Russians, even Heavy losses in shipping and planes have undoubtedly weakened our enemy but, without accurate figures, it is impossible to do more than guess at present Japanese strength. Whatever it is, however, it is not enough for the jobb that confronts the Tokyo militarists. militarists

GOOD EVERY DAY

IT'S IN THE AIR. You can feel it, every time the Axis is struck. This is the climax year, the year of decision.

In history, 1944 will be the big year of the war-every stroke for victory counts more now. That's why it's vitally important for every American to beathis

post, doing his part right now. You, personally, have an important job in winning the war-buying War Bonds. It's not glamorous-no, not even a sacrifice, really, because you are only lending your money, to be returned with

interest. But it is essential to complete victory.

Your part in this year of decision is at least one extra \$100 Bond, above your regular Bond buying. That is your minimum individual quota. But don't stop there. Remember wars are won only

by all-out effort: So buy \$200, \$300, \$500 worth-buy more than you can afford. And buy your Bonds where you workat the plant or at the office.

Your country is counting on you-let's make the year of decision our year!

If I get enough THE WAY OF SURFERING THE PARTY OF THE PARTY

ND HE means Soda...natural soda, the kind he's always used. He's got to grow more food and feed. He can do it if he gets enough soda to top dress his grain, fruit and forage; enough to side dress his corn, vegetables, potatoes, cotton and other vital crops.

Properly applied, I ton of soda top or side dressing will produce 250 bu. of octs, 100 bu. of wheat, or 125 bu. of corn; 12,000 lbs. of vegetables, 9,600 lbs. of forage, or 1,250 lbs. of cotton and 2,250 lbs. of cotton seed.

Last year 1,000,000 tons of Chilean Nitrate of Soda were used on U. S. farms. This year every pound that can be brought from Chile will be needed - and every pound possible will be brought in time for your '44 crops.
