### Meat Ring is Festive Low-Point Entree

An appetizing luncheon dish is as this crusty brown meat ring to be served with a rich meat gravy, or a savory tomato or mushroom sauce. Yet the recipe requires only two cups of ground cooked meat so it's a thrifty entree in both ration points and price.

This meat ring is an excellent way to utilize leftover cooked meat, whether beef, lamb, veal, or ham. If you'd like to serve the ring, but haven't any leftover meat on hand, use browned hamburger or 1/4 pound of dried beef.

The biscuit ring dough is made with blended shortening, a versatile product prepared by scientifically blending meat fats and vegetable oils. It has excellent shortening power, makes tender, flaky biscuits and gives foods an appealing richness. Remember that fats are an important part of a well-balanced diet, so budget the family ration points to allow the purchase of both table spread and cooking fat each week.

There was a time when some thought that fats were indigestible, but science has come to the rescue and food experts today tell us that fats are actually easily digested, both table spreads and cooking fats. It's comforting to know that products like blended shortening, that make foods taste so rich and good, are also good for us.

With this flavorful meat ring serve a buttered green vegetable,
