Wilson Market Begins 54th. Year Of Selling Tobacco

By N. G. Blackman, Jr.,
Supervisor of Sales
Wilson Tobacco Market

On Monday morning August 28, at 9:30, Wilson, The Worlds Largest Bright Leaf Tobacco Market will begin its 54th year of successful operation. All warehouses have been put in readiness and will welcome the thousands of tobacco growers who annually sell their tobacco in Wilson.

The Wilson Tobacco Market has built a name for itself that stands out above all markets in the entire flue cured area. This was achieved by the untiring efforts of the local warehousemen, buyers and most of all by the tobacco grower himself. The many customers of the Wilson market realize the advantages the market offers that no other market in the country can offer. The grower has the confidence of the warehousemen and knows that he is trying at all times to get the highest possible price for his tobacco.

The Wilson market has arranged an outstanding advertising program for the 1944 season so as to let the tobacco growers all over the belt know the prices, trend, and condition of the market at all times. There will be a radio program each day at 12:15 to 12:30 over WGTM, Wilson and WGBR, Goldsboro, with a very interesting program and latest official market reports. In addition to this we have contracted with about 25 daily and weekly newspapers to better keep you posted as to the happenings of the Wilson Market.

The Wilson market has 11 modern and up to date warehouses and ten of the most modern tobacco plants found on any market. The market will sell a total of 17 1-2 hours per day thus making it more convenient for the farmer to sell his tobacco and return home to his many chores. There has been a new sales system devised this year where every warehouse in town will sell some tobacco every day. With this system the customer can tell exactly what time his tobacco will be sold and can sell with the warehouse of his choice. This system was so arranged so that the farmer can come and sell his tobacco and return home with a minimum of time from his many jobs that he has at home to do and no one to get to do these jobs for him. The Wilson warehousemen and factorymen realize the shortage of labor on the farm and wish to cooperate in every way possible with the farmer in helping him cope with his unfortunate situation.

We wish to thank the many customers who have sold here in the past and welcome you back to Wilson for the 1944 season. Come and bring your neighbor and you will find your friends here from every where tobacco is grown.

OPEN FORUM

AN OPEN LETTER TO DUPLIN WOMEN

The Price Control Act has now been reviewed by Congress and has been extended for another year, expiring June 30, 1945. It is felt that the reenactment of the Price Control Act is a challenge to all women in Duplin County to do their part in helping every retail outlet in their communities to comply with the price control and rationing regulations.

It is well known that the women in Duplin have played a very fine part in aiding the OPA in holding the cost of living line against any rise since April, 1943. They also realize that optimism engendered by military victories can even now cause us to lose our battle on the home front - the battle of inflation. The battle against inflation is only half won; and half won is not good enough.

In planning your programs for fall, may we suggest that you do two things which we believe will be of tremendous benefit to the Price Control Program. First, in order to be of vital help, try to understand more fully, the facts about the ceiling price program. The Price Clerk or Chairman of your local WP&R Board will be only too glad to give you the information you desire.

Second, as most retailers are short of help, we feel that it would be greatly appreciated if some neighbor would go in for one morning a week to help him check his prices and see that he is in line with the price regulations. This type of community service is one of the most valuable services that can be rendered.

The year ahead of us will be difficult. Every community will feel the impact of war more keenly. We cannot stop our fight against disastrous rises in the cost of living. We know the tragedy of depressions and economic chaos. And, it's a woman's job to take her part in the front line in order to prevent a break in the dam which our government has erected against such disasters.

SOME RELIGION?

Warsaw, N. C.
August 14, 1944.

Mr. Editor:

I haven't been in to see you lately, but here I am.

I have been attending Revival Meetings nearly all this year; Methodist, Baptist, Presbyterian, and Holiness; in tents and out of doors, and have enjoyed them all.

NOW: If I could get religion like a Methodist and experience it like a Baptist, and be Positive of it like a Disciple, and be Proud of it like an Episcopalian, and Pay for it like a Presbyterian, and Propagate it like an Adventist, and could Preach it like a Holiness, and Enjoy it like a Negro, that would be some religion. Don't you think?

By D. J. Hubbard, Sr., Warsaw.

CIRCUS TO CONTINUE

The idea that the circus, a famous American institution, should disintegrate because of a disastrous fire is as fallacious as the thought that a fire in one hotel should result in the closing of all hotels throughout the land.

The unfortunate death of scores of spectators, including many children, when the Big Top caught on fire recently may serve to emphasize the necessity for additional fire protection but not to put an end to the traveling circus.

BOY SCOUT EXECUTIVE SPEAKS TO ROTARIANS

The Warsaw Rotary Club met Thursday at 1:00 P. M. in the Rotary Hall.

Mr. Wolfe made a most inspiring talk on "Boy Scout Work," pointing out that we, the older and supposed leaders, were falling down on the job. He said, "we are not taking that few minutes to talk to the young boys nor or we taking the time to help him in his scout work."

The Rotary Club has sponsored the Boy Scouts of Warsaw for several years and in the future it expects to cooperate and work more closely with the Scouts. The public is also asked to help in this great cause.

The Club also had as its guest, Rotarian Charlie Baddour, of the Clinton Rotary Club, and a former resident of Warsaw.

With a twinkle and a smile, she said she hit it with everything she could and that was the Encyclopedia.

Launch Drive To Sell War Bonds On Weed Market

A drive to sell \$28,750,000 worth of war bonds in the state's tobacco warehouses was launched in Raleigh this week at a meeting of more than 200 representatives of county war bond committees and tobacco warehousemen.

RECOMMENDATIONS AGAINST POLIO

(By Dr. Woodburn)

At a meeting of the Duplin County Board of Health the subject of infantile paralysis was discussed and the following recommendations were made:

1. Persons under 16 years of age should not use public swimming pools.
2. All large gatherings of children should be avoided, especially at picnics, on camping trips, or where children from outside the immediate locality are present.
3. All children returning from infected areas should be kept at home and not allowed contact with visitors for 14 days after returning home.
4. Since the virus causing infantile paralysis is known to be eliminated from the body by way of the intestinal tract, great care should be exercised in disposing of human excreta, and in protecting food and water supplies from possible contamination.
5. Indiscriminate visiting of sick children should be avoided, regardless of the suspected trouble.

These recommendations are made in an effort to help prevent the spread of infantile paralysis, and as such should not cause undue alarm or panic. Since there has been only one known case of infantile paralysis in Duplin County to date, the local board of health does not deem it necessary or wise to invoke more rigid or compulsory restrictions on juvenile activity.

Close-Up of a French Partisan

The Frenchman on the left talking to one of our paratroopers killed this German and three others when he took up hidden arms when "D Day" came. He and his other two companions waited only for the signal to strike. The Germans had used them as forced labor at two dollars a week.
