That's What Farmers From Coast to Coast Say About

WOLVERINE SHELL HORSEHIDES

THEY'VE said it for many years. They wouldn't wear anything else because Wolverines are not only second to none in their remarkable toughness but are the most comfortable work shoes money can buy. Soft as buckskin—tough as nails—and they even dry out soft after soaking. Shell Horsehide is the only leather with a natural tough center layer that strengthens and reinforces the leather as steel rods do concrete. And Wolverines are the only work shoes on earth with both soles and uppers all genuine Shell Horsehide. Wolverine's secret-triple-tanning process adds the amazing softness and extra comfort while retaining the months and miles of money-saving extra wear. Come to our store and try on a pair of these wonderful work shoes.
