FARMERS and NEW CAROLINA WAREHOUSES

NAT HILL — NORMAN HARDEE
J. T. JENKINS — LOUIE POLLOCK

How much does it cost to move a pin?

On a war map of the South Pacific, the little red-white-and-blue pins march steadily westward.

Tarawa... Makin... the Marshalls... Saipan... and each move brings the pins closer to Tokyo.

And each move is mighty expensive business. The cost is high in dollars... and the cost is high in men.

To plant the Stars and Stripes on Saipan cost the lives of more than 2000 American boys... plus some 12,000 wounded and missing. Naturally, these losses cannot be summed up in dollars and cents... there is not enough money in the world to bring back 2000 dead Americans.

But in guns, ammunition, and other equipment, it is estimated that Saipan cost us many millions of dollars. Each of the many steppingstones remaining be-

tween our shores and Tokyo may cost as much or more.

Where is the money coming from?

It's coming from you, and millions of Americans like you... from the taxes you pay, and from the War Bonds you buy.

And while it may pinch a little, buying these Bonds is the smartest thing you ever did.

For the dollars you put in Bonds not only help win the war. They come back to you later—and bring more dollars with them.

In this postwar world we're going to build, they'll be the most valuable dollars anybody ever owned.

Get all you can of them—now!

WAR BONDS TO HAVE AND TO HOLD
