Shaping up NOW

After the day when "Highways are Happy Ways" again!

"Shaping up" is much more than a slogan. It is shaping up today, with new methods that will soon be available. This planning, fitted metal, and plastic glass, new type chairs for long-haul relaxation — many signs of comfort and efficiency we mean talk about now.

These things that are coming, Greyhound will pioneer in their design and will make all possible speed in their construction — without relaxing, for one moment, its full-time job of carrying war manpower. These startling new buses will not only replace equipment overworked by heavy wartime travel — they'll give eleven million returning Service men and women (and travel-hungry millions at home) a more delightful way to see and enjoy "This Amazing America."
