Honored On Birthday

Miss Jane Bostic was honored Monday evening when her mother, Mrs. William Bostic entertained, the occasion being her 18th birthday. Games and contests were enjoyed, after which the guests were served ice cream, rainbow cake and coco cola. Candy was served during play. About thirty young people were present and the honoree received a number of nice gifts.

Barbecue Dinner

Mr. and Mrs. Bilbro Bostic were hosts Sunday at an enjoyable barbecue, honoring their daughter, Dorothy, on her birthday. The menu included barbecued pork and chicken slaw and salads, sandwiches, pickles, bread, coffee and iced tea. A number of local friends and several out of town guests enjoyed their hospitality.

Personals

Pfc. Clayton Williams of Camp Lee, Va., has returned after spending a few days furlough with his mother.

Farm Machinery Industry Has Major Role in War

Agriculture is as essential to the war effort as our fighting men on the fronts and the backbone of agriculture is the farm machinery industry. Napoleon said that an army travels on its stomach, so that without food our armies could not function. Without the farm machinery industry, agriculture could not function.

The part that the farm machinery industry has played in the development of American agriculture and in its present role in the war effort is given tribute by George L. Gillette, president of the Farm Equipment Institute and vice president and general sales manager of the Minneapolis-Moline Power Implement Company.

"If it were not for farm machinery, most of us would have to spend our days eking out a meager existence from the soil," Gillette says.

"Once it required 57 man-hours to grow and harvest an acre of wheat yielding 20 bushels. Today we can produce an acre of 20-bushel wheat with less than four man-hours of labor.

"Once there were vast stretches of eroded land that defied the farmer. Today much of this land has been reworked to produce food. All this has been possible only through advanced farm equipment.

"Much progress had been made by agriculture before 1941, but when the war came, the farmers were called upon to produce even more. Although the farm equipment manufacturers were too busy making the tools of war to manufacture any new types of farm machinery, we have continued to turn out repairs for machines already on the farm and as many complete units as government limitation orders permitted; and the American farm has demonstrated the blessing of mechanized agriculture by achieving astounding increases in food production.

GEORGE L. GILLETTE

ing of mechanized agriculture by achieving astounding increases in food production.

"These dealers believe in the future of the American farm and equipment industry," Mr. Gillette says. "They, like the manufacturers, believe in our country's future, an America in which there will be food for all, and—with progressive agriculture as a foundation—an ever-advancing standard of living for a world at peace."

Mr. Gillette feels that all people, particularly those living in cities and towns, should realize that practically all food, clothing and other essentials come from the farms that produce these things at low cost because of the miracles accomplished by modern farm machinery.

Thomas - Picket

Rites Solemnized

Miss Dora Houston Pickett of Chinquapin became the bride of Lloyd Hiram Thomas, Jr., of Beulaville on Sunday afternoon, March 18th, at three o'clock in a private ceremony performed by the Rev. N. E. Gresham at the home of the bride.

The bridal couple entered together, unattended. The bride wore a blue two-piece dress with black accessories, and a corsage of white carnations.

Following the ceremony, an informal reception and cake-cutting with punch was given at the home by the brides mother; attended only by relatives and close friends.

Mrs. Thomas is the daughter of Mr. and Mrs. G. E. Pickett of Chinquapin. She is a graduate of Chinquapin High School and Mars Hill College.

Mr. Thomas is the son of Mr. and Mrs. L. H. Thomas of Beulaville. He is a graduate of Beulaville High School and a former member of the U. S. Navy. At present he is employed at New River, N. C.

The couple will make their home in Beulaville.

YOU'RE NEXT, TOJO!

Look your fate in the face, little "war god," and remember you brought it upon yourself! Just as Mussolini and Hitler, Tojo, you are doomed to complete defeat by the democracy-loving nations' fighting forces, and by the people everywhere who will gladly continue making any sacrifice to wipe out the threat to freedom with which you have challenged the world!

Gardner Edwards

IN BEULAVILLE

HOW MUCH TO MOVE A WAR?

AS SOON as we can, we'll bring to bear on the Japs all the additional might we've been using against Germany.

What will it cost, this Moving Day of War?

Estimate it in these terms: The job of moving millions of men from one front to another. Thousands of ships to carry the supplies of battle. Swarms of new-type aircraft to blast the path into enemy territory.

You can get an idea of the cost from the fact that Uncle Sam needs 7 billions from us in the mighty Seventh War Loan—now!

The Seventh War Loan will call for the greatest bond-buying we have ever done.

If you have an income—whether from work, land or capital—you have a quota in the 7th War Loan.

FIND YOUR QUOTA . . . AND MAKE IT!		
IF YOUR AVERAGE INCOME PER MONTH IS:	YOUR PERSONAL WAR BOND QUOTA IS: (CASH VALUE)	MATURITY VALUE OF 7TH WAR LOAN BONDS BOUGHT
\$250	\$187.50	\$250
250-300	150.00	200
300-350	121.25	175
350-400	112.50	150
400-450	93.75	125
450-500	75.00	100
500-600	56.25	75
Under \$100	18.75	25

Let our warriors remind you—only the European phase of the war is over. Only the Victory over Fascist Italy and Nazi Germany is complete. There is still a conflict ahead which will tax all of our efforts, energies, and resourcefulness. Japan is still to be reckoned with! So though you cheer Europe's liberation — be quick to return to your war work, war duties and War Bond buying. It's over . . . in Italy and Germany But—it's not over . . . in Japan. Until it is, our fighting forces need all the backing up you can give them—to shorten the war.

They raised the Flag again on Corregidor . . .

Let's raise the money in the MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on Iwo Jima, four thousand men—more and more—died to take the long step forward to Victory. Twenty thousand others suffered wounds. Yes, we're on the way to Tokyo!

At home, your contribution to Victory is measured in dollars. The

Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!

ALL OUT FOR THE MIGHTY 7th WAR LOAN
