Beef Production

Payments Announced

Announcement of the Beef Production Payment Program by the WFA, effective May 19, 1945, has been received by Lewis W. Outlaw, Chairman of Duplin AAA. In explaining the program, he pointed out that the payment rate will be 50 cents per hundred-weight for good and choice cattle owned and fed by the applicant at least 30 days prior to selling. Cattle are required to weigh 800 pounds (live weight) or more, and to be sold to a licensed slaughterer. Payment will probably be made similar to payment earned under the Dairy Production Payment Program and cattle-men are urged to keep accurate records of sales.

Cattlemen will be furnished complete information relative to details of the program as soon as it is received by the Duplin County AAA Committee.

NOTHING LIKE RETONGA SAYS FARMER DEANS

Eats Anything Now; Sleeps Fine, And Has Discarded Harsh Laxatives. Had Suffered Several Months.

Thousands of farmers are gratefully praising Retonga for the relief this noted herbal stomachic and Vitamin B-1 medicine gave. Among the latest is Mr. Leslie Deans, of Route 2, Wilson, N. C., who gratefully states:

I began suffering attacks of indigestion and each attack seemed a little more severe than the last one. Soon my appetite went back, I felt nervous, and headachy and had so little energy that I just dragged about almost hating to move. My elimination got so sluggish that I had to use powerful laxatives to get a little relief. It seemed to me that I did not get one good night's sleep in ten, and I never felt rested. "I wouldn't put a price on the relief Retonga gave me. My appetite is fine and I feel no more distress from indigestion. I sleep like a top and feel good when I wake up. I never think of taking those harsh laxatives now, and I haven't had a headache in weeks. The best favor I can do anyone suffering as I did is to tell them about Retonga."

Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach, and loss of appetite. Accept no substitute. Retonga may be obtained at the Kenansville Drug Store in Kenansville, or at the Warsaw Drug Co., in Warsaw. (Adv.)

The Postwar South

IN POSTWAR economy, the South will have the benefit of a solid foundation of established assets and irremovable advantages. Whatever readjustments will come with peace, this section of the Union will continue to be the "Solid South"—not in terms of politics but in the substantial figures of assured resources.

A recent statement of the productivity of the Southern states shows that they produce:

- More than 90 percent of the nation's cotton.
- One hundred percent of the nation's cane for sugar.
- Eighty-seven percent of the rice.
- Forty-eight percent of the citrus fruit.
- Sixty-six percent of the tobacco.
- Thirty percent of the soy beans.
- Twenty-four percent of the sweet potatoes.

Also, the South has 50 percent of the nation's farms, one-third of America's minerals including two-thirds of the oil, one-fifth of the bituminous coal, two-thirds of the natural gas, half of the marble, 97 percent of the sulphur, 40 percent of the forests and all of the turpentine and resin.

The South was once called, by eminent authority, the "nation's No. 1 economic problem." By intelligent and intensive development of its natural resources, plus its established production of the commodities of commerce and consumption, the South will, in the not distant future, become recognized as the nation's No. 1 economic asset.
