

THANKS to RETONGA HE now EATS PLENTY

"For About 2 Years I Suffered Tortures From Indigestion," States Cave City Man. Tells Of His Prompt Relief.

"For about two years I suffered tortures from acid indigestion, but thanks to Retonga I can now eat anything on the table and I feel fine again," happily declares Mr. Andy Jones, well known resident of Cave City, Ky., and for many years connected with the Mammoth Cave Company.

"I felt like my stomach was very toxic and usually my food turned sour in a short time after eating," continued Mr. Jones. "I would have to use home remedies to get relief from the sharp butting pains from gas in my stomach.

I felt weak and rundown, and I had no appetite and very little strength. I suffered so badly from sluggish elimination that I had to take some kind of laxative almost every day. I was going down hill all the time.

"Retonga was a real surprise to me. All that distress from indigestion is relieved and I eat heartily, and I feel so much stronger I am on the go every day. Retonga proved to be just what I needed; and when my wife feels a little below par, a few doses of Retonga always gives her relief. It's a grand medicine."

Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach and loss of appetite. Accept no substitute. Retonga may be obtained at the Kenansville Drug Store in Kenansville or at the Warsaw Drug Co., in Warsaw.

SOME TIRES ARE RELEASED

Farmers needing implement tires for their farm equipment were reminded yesterday by Theodore S. Johnson, Raleigh district

OPA director of the War Price and Rationing Board that they could now buy them without a purchase certificate.

"Following its previous policy of removing controls on articles at the earliest possible moment, OPA has taken farm implement and industrial type tires off the ration list," Johnson said.

Truck and passenger tires remain under rationing, he pointed out.

"Ample supplies of tractor tires are on hand to meet the requirements, and so there is no longer any need to keep them under rationing," Johnson declared.

"In making this announcement, I want to take occasion to thank the farmers of Duplin County for their splendid spirit of cooperation during the period when these tires were scarce. By taking care of their individual tires and having them checked regularly, they have contributed materially to our national rubber conservation program," Johnson said.
