 Misses Wilma King, Ganelle Chilton and Mary Fowlkes of Greensboro were guests of Misses Lucy and Elithe Outlaw several days last week.
 Miss Sallie Outlaw has gone to North Wilkesboro where she is a member of the School Faculty.

In Memoriam

In Memory of Mrs. Laura G. Bryant who passed away on Sept. 17, 1933.
 Treasured thoughts of one so dear,
 Often brings a silent tear.
 As time and memory both shall last;
 From our hearts you'll never pass.
 Until memory fades and life departs;
 You'll live forever Mother, in our hearts.
 Daughter, Sallie and Grandchildren.

CARD OF THANKS

We wish to thank each and every one for the kindness shown us during the death of our beloved husband and father.
 Mrs. Wm. A. Stroud and children, Mrs. D. L. Barnette, Mrs. L. H. Whitfield.

CAN EAT ANYTHING NOW GIVES RETONGA CREDIT

Distress From Acid Indigestion, Painful Muscles And Weak, Exhausted Feeling Promptly Relieved, States Mrs. Norton. Feels Better Than In Years.

MRS. H. E. NORTON

"My father recommended Retonga to me and I feel so much better now that I can never thank him or this grand medicine enough," happily declares Mrs. H. E. Norton, well known resident of Route 1, College Park, Ga., in praising this famous Vitaminized gastric tonic.
 "I did not have strength enough to stay up all day and I had about given up hope of ever feeling much better," continued Mrs. Norton. "Acid indigestion caused me so much distress that I simply dreaded to eat. Often I felt like the gas pressure up against my chest would cut off my breath. I seemed full of toxic poisons from sluggish elimination and at times I slept poorly. I fell off to only eight-

six pounds and I felt so exhausted I had to do my housework a little at a time.

"Retonga gave me grand relief. I have regained several pounds, and I feel better and stronger than in years. I can never say enough in praise of Retonga."

Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach, and loss of appetite. Accept no substitute, Retonga may be obtained at the Kenansville Drug Store in Kenansville or at the Warsaw Drug Co., in Warsaw. (Adv.)

GAS & FUEL OIL COUPONS ARE DEAD

In response to many inquiries, Chairman Ralph J. Jones of the Duplin County WP&RB, said that certificates for gasoline and fuel oil held by the trade or consumers have become valueless and may be disposed of in any manner desired. He added that gasoline rationing coupons are not needed to obtain tire purchasing certificates and said that their possession would not aid an applicant in getting such a certificate.
 Passenger and truck tires are still rationed, he pointed out, largely on the basis of occupational driving needs and with eligibility no longer on a consumer's B- or C- ration.

Under an OPA ruling made when it was removed from rationing, fuel oil coupon sheets which have been deposited with dealers and suppliers need not be returned to consumers nor retained.
 Dealers, distributors and suppliers need not retain rationing records nor submit reports, Mr. Jones explained, unless the same records are required by some other regulation or law.

ADVICE GIVEN ON BANG'S LAW

Since it is "quite likely that a number of herds of cattle may be dispersed in the near future," Dr. William Moore, head of the Veterinary division of the State Department of Agriculture, has called the

attention of cattle-dealers to 1945 amendments to the North Carolina Bang's Law.
 Dr. Moore reminded them that all dairy and breeding cattle over six months of age offered for public sale, except for immediate slaughter, must be negative to a Bang's test made within 30 days to the sale and approved by the State Veterinarian.
 He explained that the law declares an animal infected with Bang's disease if it reacts to a seriological test or if the Bang's bacillus has been found in the body or its secretions or discharges.

The Commissioner of Agriculture is authorized by the law to "permit the sale of valuable animals that have reacted to an official Bang's test or are suspicious of same, provided such animals go direct to infected herds that have been vaccinated with Strain nine-teen Brucella vaccine, and are held under quarantine in accordance with the law and regulations."
 "Such vaccinated animals shall be permanently identified by tattooing or other methods approved by the Commissioner of Agriculture."

Dr. Moore said that all vaccinated animals that show a positive reaction to an official Bang's test 18 months or more after vaccination should be considered as affected with Bang's disease and should be branded with the letter "B".

SUGAR STAMP

The Raleigh OPA reminded consumers yesterday that Sugar Stamp No. 38 in War Ration Book No. 4 is now valid.
 They explained that last year many folks attached Sugar Stamp 37 to their canning sugar application instead of Spare Stamp 37, and so lost that coupon. For that reason, OPA decided to go on to No. 38, which everyone should

have in his ration book.

Raleigh ODT Office Moves To Charlotte

All persons having business to transact with the Raleigh District Office of Defense Transportation after September 15 should contact the ODT District Office in Charlotte, Harvey R. Roseman, ODT District Manager announced today.
 After that date all pertinent files in the ODT Raleigh office will be moved to Charlotte and the office in Raleigh will be completely closed within a few days after the fifteenth.

Mr. Roseman pointed out that with the revocation of most ODT orders and regulations, there is now little need for the public to contact ODT.

He said that personal interviews were of no value as all information must be in writing and applicants will receive speedier service by mail than if they make a personal visit to our office.

The Charlotte Office is located on the Sixth Floor, Charlotte Law Building.
