Speed Up Discharge

With the rate of discharges from the armed forces soon expected to exceed 500,000 per month, several organizations, among them the American Red Cross, are taking steps to expand services to the veterans to make easier the path from uniform to civilian clothes.

The latest move of the Red Cross is the enlargement of the field directors' staffs in hospitals and the installation of full-time paid field directors in veterans administration hospitals to work with Red Cross volunteers now serving in these hos-

Many veterans in their haste to get home often pass up the service available at hospitals and separation centers and often regret their haste, for the army and navy and other organizations have provided trained personnel to inform the veteran of all his rights, to help him plan his future and to advise him in many fields. He should take advantage of these facilities

Questions and Answers

Q. What members of an army man's family are eligible for medical care? Mrs. I. C.,

Downsville, La. A. The war department says that the wife and children are normally eligible for medical care, but if a mother, fêther, or minor sisters or brothers are living within the soldier's immediate household and are dependent upon him for support they too may be eligible for medical

Q. My son was killed in action and I sent in a claim for a pension several months ago and haven't heard yet. I am sick and not able to work and I need some help. What can I do? Mother, Dalton, Ga.

A. If your son was unmarried and you were his beneficiary and dependent upon him you are entitled to compensation. If he was married, his widow is entitled to the pension. Suggest that you write again to the Regional Office of the Veterans Administration at Atlanta Ga., and explain your case. Sometimes action is slow, but if you are entitled to a pension it will be retroactive from the time you made application.

Q.-My son enlisted in the air corps in June, 1944. He was called in January, 1945, and passed all the exams at the induction center. When he received all his "shots" he was sent to a hospital and he was given an honorable discharge March 8, 1945, due to his heart. Is he eligible for G.I. benefits?

A .- If the injury of ailment of your son was received or aggravated by his service, he is eligible for G.I. benefits. You may determine this by having him apply for a certificate of eligibility. Generally speaking a person must have served in the armed forces at least 90 days in order to qualify for benefits under the G.I. Bill.

Q. As I understand it, all World War II veterans who have been honorably discharged from the services are to receive a bonus or payment of \$1,646. They are to receive this in \$20 a week payments or \$520 a year. As I am writing this I am serving time in prison, but I was given a medical discharge from the service in 1942. Will veterans who are serving time in any institution receive this money if they were honorably discharged from the service? No. 18850, Illinois State Penitentiary, Menard, III.

A. You have been misinformed, since no veterans receive a bonus. They do receive mustering-out pay up to \$300 and if they do not obtain employment after applying to the United States Employment Service they may receive unemployment compensation up to \$20 per week for a maximum of 52 weeks. If you received a medical discharge, it may be possible that you are entitled to draw service connected disability payments. Suggest you take the matter up with your prison physician for application to the nearest regional office of the Veterans Administration. If you have an honorable discharge, the fact that you are in prison will not make any difference in obtaining any compensation to which you are entitled.

Q. Is a veteran's dependent child, living separately, entitled to a part of his mustering-out pay? B. S., Geneva, Ala.

A. Mustering-out pay is given di-rectly to the honorably discharged veteran, \$100 at time of discharge, if he has served less than 60 days; \$100 in 30 days if he has served 60 days and no foreign service, and an additional \$100 in 60 days if he has had foreign service, a total of \$300.

Q.—Can you tell me what feel is made to power the new jet-propelled.

Employment First

Prople who work in the fields, in mills, mines and shops, on railroads and in industry generally, are to be congratulated upon President Truman's choice of Fred M. Vinson, the new Secretary of the Treasury of the United States. His undertaking is enormous, delicate and vital. But it is my belief that nobody else in government is quite as well qualified to handle the job as

The new cabinet member knows taxes. Things he has said already prove that he is keenly aware of two things that are currently the most important facts about taxes. (1) High taxes are necessary, now and for some time to come. (2) Wrongly devised taxes in the United States can wreck the financial structure of the entire world in a few earth again.

A Dependable Thing The "yankee dollar" is one of few known quantities left in the financial world. While this condition lasts, there is a way for weak and depleted countries to gain industrial and then financial strength. The dollar will remain good so long as ises and paying the interest on his stupendous national debt.

Our debt is so big and America's moral obligations are so exacting that tax I must be high after the war, much higher than they have ever been in peaceful years before. Government has no way to get money except by thaing its citizens. Consequently the cit. cus have to be prosperous. There must be full employment, plenty of jobs at good wages otherwise not enough taxes.

Holding our Ground The world is relying on the solvency of America, on the soundness of the dollar, and it all depends on jobs. Mr. Vinson said: "Taxes should be levied in such a way that they have the least harmful effect on the expansion of business investment and the creation of jobs because productive employment is the write source of . . . revenue which the government collects from taxes."

The Secretary's eye was not on 10-12-2t. pd. taxes alone. In a recently published c, ort he made it clear that productive employment is the foundation of America's living standard his est in the world), the source of all income and the basis of prospurity for business and agriculture. We may be assured that Vinen will always do his best to prevent rejection of jobs by taxing busin as to a slandstill.

A R lional Economy Here is a powerful and rational scatence from Vinson's pen: "The sooner uncertainties in the post-war ily if you die. See or write tax structure are removed, the sooner business management will be inclined to make firm commitments for expansion and the faster mencan be put back to work following the wholesale cancellation of contracts that will occur with the unconditional surrender of Japan." Persons who would like to see

America in chaos, people who would like to see a dictator climb to power over America's wasted estates, may call the new Treasury head a friend of big business. He apparently is, to whatever extent such a friendship means jobs for workers, prosperity on the farm, custom. Is in the store and food on the table for Ameri-ga's plain people.
