WILSON COULD HARDLY GET HOME FROM HIS WORK

Retonga Promptly Relieved Distress From Acid Indigestion, Nervousness And Sluggish Elimination He States, Feel Fines Now.

MR. E. F. WILSON

More and more well known men and women are coming forward with praise for Retonga. Among the latest is Mr. E. F. Wilson, well known resident of 977 Manigault St., S. E. Atlanta, Ga. Discussing his happy experience with Retonga he gratefully declared:

"I had gotten to where my food would come back up as sour as vinegar almost before I left the table and the gas pressure in my stomach at times nearly cut off my breath. My nerves were on edge. I had to depend on strong laxatives for elimination, and at times every muscle in my body seemed to feel sore and painful. Many times I felt like I would never make it home from work."

"I spent lots of money but Retonga is the first thing I found that gave me relief. I eat anything

put before me, and my food digests so well that I have regained nearly ten pounds. My nerves have steadied down and the constipation and pains in my muscles have been relieved. I feel good even after a hard day's work. Retonga is worth telling the world about."

Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach, and loss of appetite. Accept no substitute. Retonga may be obtained at the Kenansville Drug Store in Kenansville or at the Warsaw Drug Co., in Warsaw. (Adv.)

DEAD CALM IN A HURRICANE ? YES NO

In the very midst of a hurricane you'd be safe! Its center is sort of "hollow" . . . calm. All weather packs surprises, you bet—especially Winter weather. Yet you can bet on having your aging car face it safely, with the engine's insides under guard of OIL-PLATING!

Changing to Conoco Nth motor oil is all it takes for an OIL-PLATED engine—fortified throughout with lubricant bonded to metal direct, by the magnet-like action of Conoco Nth oil's added ingredient! OIL-PLATED metal defies corrosion and other wear. Surfaces kept OIL-PLATED during long cold waits have protective lubricant ready in advance to minimize starting wear.
