What can you spare that they can spare? Everything is needed for every age. Look through your closets and shelves, dig into your stored-away things. Can you spare winter clothes, summer clothes, children's or infants garments? Have you a blanket or quilt to spare . . . or a sweater, or worn And if you can possibly spare shoes, tie them tightly together with string so the mates won't get lost. Each pair will be

Duplin Times Kenansville, N. C. Dear Mr. Grady:

At a recent meeting of the Executive Committee of the North Carolina Tuberculosis Association, it was voted to send a special letter of appreciation from the Executive Committee to Seal Sale Chairmen throughout the State who have conducted the Seal Sale in their communities for ten years or more. There were 23 of these men and women. Two of them are Mrs. Beatrice R. Hill, who has served as Seal Sale Chairman for Faison for sixteen years, and Mrs. Mamie L. Turner, who has conducted the Sale among the colored people of Duplin County for twenty-two years.

Believing that this gesture of appreciation would be of interest to you and your readers, we are enclosing copies of the letters that were sent Mrs. Hill and Mrs. Turner from the North Carolina Tuberculosis Association.

Hill and Turner: December 12, 1945

Mrs. Beatrice R. Hill Faison, North Carolina Dear Mrs. Hill:

On behalf of the Executive Committee of the North Carolina Tuberculosis Association, I wish to express to you our sincere appreciation for the devoted service you have given this Association by your conduct of the annual Christmas Seal Sale in your community.

Having accepted this responsibility in 1930, you are in 1945 handling the Christmas Seal Sale in Faison for the sixteenth year.

I realize the vast amount of work this period of service represents, not only in conducting the Seal Sale but also in spending the money given in this way by the people of your community to fight tuberculosis. I feel sure that these citizens, no less than members of this Association, appreciate your civic-minded endeavor.

The conception of the founders of the National Tuberculosis Association that doctors and laymen could work side by side in the fight against tuberculosis was both original and sound. The fruits of that cooperation are evident in better knowledge of the disease on the part of the public and in a dramatically lowered death rate from tuberculosis. In this struggle against disease, you are taking a significant part.

Please accept our congratulations, our gratitude, and our best wishes to you.

Cordially yours, David T. Smith, M. D. President
